

Join the Auditor General of South Africa as a **TRAINEE DATA ANALYST**

PURPOSE OF ROLE

The purpose of this role is to engage with stakeholders, both internal and external, to identify business challenges and provide solutions. The incumbent will be responsible for data analytics support across various audit business units, using big data analytics and advanced techniques to optimize the data analytics agenda within the organisation. They will also execute analytics-driven solutions, including predictive modelling, machine learning, and artificial intelligence, in alignment with the AGSA data analytics strategy.

SKILLS AND EXPERIENCE

NO EXPERIENCE REQUIRED

B Com or BSC degree in information systems, informatics, applied mathematics, statistics, actuarial science, data science, data engineering, computer science or equivalent
BTech degree in Financial Information Systems or Accountancy or equivalent

If this role appeals to you and you want to contribute to ensuring that public funds are spent wisely and efficiently, apply by sending your CV to info@softest.co.za
