II RESEARCH PROPOSAL AND TITLE REGISTRATION

2.1 APPOINTMENT OF SUPERVISOR

The Head of Department will nominate a suitable supervisor for appointment by the Postgraduate Committee. The relevant department will inform the student in writing of the official appointment of the supervisor. The nomination must be done by the supervisor on the prescribed form (*dwarsvorm*) obtainable from Student Administration.

2.2 MEMORANDUM OF UNDERSTANDING

After registration, the supervisor and student will enter a memorandum of understanding. This document will provide a basis for the interaction between the student and the supervisor. It is the responsibility of the student to plan and manage his/her studies in accordance to this agreement.

2.3 RESEARCH PROPOSAL

The research proposal outlines the proposed procedures of a specific research project. It is a crucial step in the research process and must ensure that quality is built into the research process at an early stage.

The research proposal should therefore identify a problem and give evidence that the student has a firm grasp on the problem to be investigated.

2.4 ETHICAL CLEARANCE

A student must apply for ethical clearance to commence with fieldwork. An application must be submitted together with his research proposal to the Research & Ethics Committee of the Faculty of Theology. [Information](#) on the electronic submission and acquisition of the ethical clearance form can be obtained from the secretary of the Research & Ethics Committee. Contact your supervisor.

2.5 PLAGIARISM

Once the title is registered, it cannot be changed!

III FINALISATION OF THESIS OR DISSERTATION

3.1 FINALISATION OF DISSERTATIONS AND THESES

Your supervisor will guide you and furnish information on the research and writing of the thesis or dissertation.

Programme	Title of research output	Weight or research component (research credits)	Number of words	Number of pages
BDiv Level 8	Research essay	30	7 500	20
PG Dip (Theol) Level 8	Research essay	30	7 500	20
MDiv Level 9	Mini-dissertation	604	15 000	40
MTh (coursework) Level 9	Mini-dissertation	90	22 500	62
MTh Level 9	Dissertation	180	50 0005	138
PhD Level 10	Thesis	360	90 000	250

MDiv, MTh (coursework) and MTh (Level 9)

On the Master's level, a mini-dissertation (MDiv and MTh [Coursework]) or a dissertation (MTh) must be submitted. The research component of the Master's degree requires that a student demonstrates that s/he has achieved mastery in a specific academic field, acquired a body of advanced-level knowledge, and has applied skills of critical analysis and evaluation to the results of the research. Students awarded a Master's degree should have acquired the intellectual skills required to pursue further studies or research in a largely self-directed, independent manner. Importantly, a Master's degree does not require that the student completes original research which makes a novel contribution to the body of knowledge in the field.

PhD (Level 10)

A Doctor of Philosophy (PhD) degree is a research-based qualification, awarded for a submitted thesis (an independent study) conducted in the sciences or humanities. The award requires the creation and interpretation of new knowledge, making a significant and original contribution at the forefront of the academic discipline or area of professional practice, manifest ability to conceptualise, interrogate and answer high level research questions, and understanding of relevant research techniques. The work must be of a quality to satisfy peer review and merit publication. The degree may be earned through basic discipline-based or multidisciplinary study or applied research. A graduate should then be competent to supervise and evaluate the research of others in the area of specialisation.

3.2 SUBMISSION OF A THESIS OR DISSERTATION

No student will be allowed to submit a dissertation or thesis for examination without the approval of the supervisor. The printed submission form must be obtained at Student Administration. It is the responsibility of the supervisor to ensure that the dissertation or thesis satisfies the minimum standards.

The student must on recommendation of the supervisor, inform Student Administration in writing of his/her intention to submit – three months before the final submission.

Submission deadlines:

30 April to qualify for the Spring graduation ceremony in September and

30 August to qualify for the Autumn graduation ceremony in April.

3.3 EXAMINERS AND EVALUATION

The examiners are appointed by the Postgraduate Committee. At least three to six months prior to submission, the supervisor must submit the names of potential examiners to a meeting of the Postgraduate Committee for approval. The required info of an examiner must be completed on the student form - as kept by the supervisor – and a short CV must be attached.

The potential examiner must receive a short paragraph (+ 5-6 sentences) on the research to help him/her decide to accept the nomination.

Three examiners are nominated for a doctoral thesis: one national and one international and an internal examiner. One national examiner and an internal examiner are nominated for a research master's dissertation or a dissertation of limited scope. Some departments will not appoint an internal examiner for the mini-dissertation of a course work master's programme. An examiner has six working weeks to read the work and write an examination report.

The criteria for evaluation as explained in the General Regulation brochure is provided to an examiner as guidelines.

CRITERIA FOR EVALUATION

- (a) A dissertation must prove a candidate's ability to work independently.
- (b) A doctoral thesis must contain proof of original research that contributes to the development of new knowledge and expertise.

(c) A thesis/dissertation is evaluated on:

Scholarly and academic standard of research, methodology and comprehension of field of research.

Scholarly and academic quality of processing and presentation; Editing and use of language;

Technical finish and layout;

Suitable for publication: either in total or selected sections.

(d) If the dissertation is rejected, an amended version or another dissertation may be submitted within two years.

(e) The thesis may only once be submitted in the amended form.

The identity of the examiners may not be released to the candidate until the examination process has been completed.

3.4 DRAFT ARTICLE

The publication of research findings in an accredited journal is important as the research results will be made available to the research audience.

Before or on submission, at least one article for publication must be drafted. Proof of receipt by an accredited academic journal must be submitted to the Head: Student Administration. Conferment of the degree is subject to compliance of the stipulations of this regulation.

The supervisor is responsible for ensuring that the draft article is taken through the processes of revision and resubmission, as may be necessary.

The draft article will be distributed together with the examination copies of the thesis amongst the examination panel members for discussion at the oral defense.

3.5 ORAL DEFENSE

The oral defense for a doctoral candidate takes place if all the examination reports are positive. The purpose of the defense is a final assessment of the doctoral study. It may include:

- ☐ A presentation of findings;
- ☐ Responses to the written reports by the examiners;
- ☐ An intellectual discussion on related fields to the thesis and article.

The examination panel will conduct the oral defense, consisting of:

- ② The chairperson;
- ② The internal examiner;
- ② The external examiners
- ② The supervisor;
- ② One appointed staff member of the faculty.

The duration of the oral defense is normally one hour and is organised by the relevant department. Examiners will participate. The electronic communication media eg Skype, Google+ or a telephone conference will be used. Guests may be invited by the department.

3.6 FINAL SUBMISSION FOR ACADEMIC SERVICES

Immediately after the oral defense, corrections are done and the final hard bound copy is submitted to Student Administration together with two electronic versions on CD. One must be in MS word or some other word processing package and one in Adobe Acrobat or .pdf.

PLEASE NOTE: The degree will not be conferred unless the final copy is submitted before 15 February for the April graduation ceremony and 15 July for the September graduation ceremony.

Please check again the submission instructions (attached) regarding other requirements.

3.7 DEGREE CERTIFICATE AND ACADEMIC RECORDS

The certificate is only printed once – thereafter a duplicate will be issued.

Degree certificates will be forwarded to students who did not attend the graduation ceremony by the office of the Registrar. Certificates will not be kept by the University.

Academic records are furnished by the Client Service Centre to registered students.

After the graduation ceremony, you are no longer an official registered student and have to contact MIE.
