MPM Graduation rate (2016-2021)

MPM Completion Rates:

Within *prescribed* two years: approximately 20-25%

Within 3-4 years: approximately 20-25%

Longer than 3 years: approximately 10% (requires special approval).

Reasons for relatively slow throughput:

Part-time programme; hence all participants work full-time. Requires disciplined personal time management.

The Research Project often takes more time and effort than expected. Data acquisition is typically time-consuming.

Students get promoted or change jobs while doing their Masters.

Students from remote areas experience problems with narrow band-width and unreliable internet access
