

Tuks, NWU headed for photo finish

Just 46 points separate defending champions Tuks and last year's runners-up, North West University, heading into the second and final Varsity Athletics meeting today - a matter of split seconds. World class athletes Rantso Mokopane and Taylon Bieldt led the charge for NWU and Tuks respectively, earlier this month, as Tuks led at the halfway mark. Athletes compete to earn points based on the IAAF Scoring Tables, where athletes' times or distances are calculated based on an international table, falling into various categories that determine the number of points awarded for the result.
