

# LAUNCH YOUR CAREER...

## <Job Title> IT System Developer

OUTsurance is an OUTstanding, dynamic, Centurion based, insurance company that aligns its business with its core values of Awesome service, Leadership, People development, Passion, Recognition, Respect, Honesty and Profitability. If you are an energetic, target driven person with a passion for your career and you excel in a challenging environment, we have the ideal opportunity for you. We are one of the largest users of Rocket Universe technologies in South Africa and develop multi-platform systems across a range of financial services products.

<Duties> As a trainee, you will be trained in the Rocket Universe and SB + Technologies, in order to be able to support the role as system developer. Together with a team of dynamic and skilled developers, you will assume full responsibility for development and maintenance work on the in-house systems. You will also be exposed to our other development environments, which include Microsoft technologies.
