TMI Dynamics a leading simulation and training solutions provider in the aerospace, maritime and transport sectors, has full-time and contract positions available for undergraduate and post graduate students. TMI Dynamics designs, develops and commissions e-learning systems and simulators for local and overseas clients. The company is seeking computer programmers and engineers who are passionate about creating immersive simulators and web based interactive training solutions.

TMI has the following positions available:

1. **Computer Programmer** with Java, html5 and sql database experience.
2. **Software Engineer** with intermediate skills in C++ and Matlab Simulink.
These skills must be supplemented with project experience and strong capability in mathematical modeling.
3. **Mechatronics Engineer** with experience in designing and developing data acquisition systems, open and closed loop controllers, digital signal processing and systems evaluation and testing.

The ideal candidates must have the following characteristics:

1. The relevant academic and practical experience in the related field.
2. Excel academically in the subjects related to these positions.
3. Demonstrate the ability to problem solve.
4. Be passionate about building simulation and e-learning solutions.
5. Enjoy working in a team.
6. Be ambitious, tenacious and confident to tackle challenges.

To apply for a position, please send a e-mail to: careers@tmi-za.com
Please specify the position you are applying for in the subject line.
