

Mockingbird's Attics Finch

By Amor Kruger

Mockingbird's Attics Finch

Turned into societies Mr Grinch

For believing in his own right

By trying to end the Maycomb fight

At that time the prejudice ruled

And if not a racist you were a fool

Representing a black man was a sin

That's why dark vs. light would never win

The right isn't always right

But you're cautious of going left

The parliament starts national fights

All because of promises they never kept

The right may be the law

Codified by smart men

My rights are the morals

I was taught from way back then
