- BCom Human Resource Management

The BCom (Human Resource Management) degree introduces students to the key disciplines of:

- **Industrial and Organisational Psychology:** Using knowledge of the psychology of human behaviour to ensure that people work “better” in the workplace.
- **Human Resource Management:** Managing people using workplace policies and procedures to ensure that they are effective and productive.
- **Labour Relations Management:** Implementing Labour Relations programmes and acting as mediators through advising and counselling in the workplace.

A great benefit of this programme is that in addition to learning about the core human resource content, students also gain a wider knowledge of business by studying BCom modules, which will make graduates marketable for any number of business job opportunities. The undergraduate degree provides the necessary foundation for students to later specialise in Industrial and Organisational Psychology, Human Resource Management and Labour Relations Management at the postgraduate level.
