- BCom *Informatics* - *Information Systems*

Students enrolled for the BCom (Informatics) Focus area: Information Systems degree study the application and use of the computer and information systems in an organisation. The broad background in economic and management sciences gained through this programme is combined with information technology (IT) to teach students how to design and implement systems for storing and manipulating data in such a way that people can understand, use, interpret and make decisions based on that information.

The BCom (Informatics) programme at UP is the only degree in South Africa that is internationally accredited by the Computing Accreditation Commission of the Accreditation Board for Engineering and Technology (ABET) of the USA. Developments in IT enhance the business environment by enabling companies to do more in less time and provide management information faster and more accurately. IT is the gateway to the international business world and makes it possible to complete business transactions within seconds.

Our graduates are employed in all commercial sectors, including:

- Finance
- Insurance
- Telecommunication
- Mining
- Software development
- Consulting organisations
- Education
- Retail

Characteristics of students who excel in this programme are:

- Problem solvers
- Analytical minds
- Creative thinkers
- Good communicators
- Good at working in a team
- Good at working with people
- Able to deal with ambiguity
