3. An average of 65% for the research component completed at master's level
4. An admission examination may be required

Note: Additional modules may be required in order to reach the desired level of competency.

General Information

University of Pretoria Programme Qualification Mix (PQM) verification project

The higher education sector has undergone an extensive alignment to the Higher Education Qualification Sub-Framework (HEQF) across all institutions in South Africa. In order to comply with the HEQSF, all institutions are legally required to participate in a national initiative led by regulatory bodies such as the Department of Higher Education and Training (DHET), the Council on Higher Education (CHE), and the South African Qualifications Authority (SAQA). The University of Pretoria is presently engaged in an ongoing effort to align its qualifications and programmes with the HEQSF criteria. Current and prospective students should take note that changes to UP qualification and programme names, may occur as a result of the HEQSF initiative. Students are advised to contact their faculties if they have any questions.

Minimum credits: 360

Core modules

[STK 990 Thesis: Statistics 990 Credits: 360.00](#)

Prerequisites No prerequisites.

Period of presentation Year

Annual increase information:

- Module pricing is subject to change at the beginning of every year without prior notice.
- UPOnline tuition fees will increase annually by approximately 5%.
- The annual increase will apply from the March intake, which is the second intake of the year.
- If the programme fee is paid in full upfront the student is still liable for the difference between the upfront payment and increased amount until the completion of the programme.
- If you have any historic debt owed to the University of Pretoria, any payment you make will go towards settling that debt first.
- All-inclusive total programme cost.
