- Higher Certificate in Sports Sciences

The Higher Certificate in Sports Sciences aims to develop sports coaches and administrators who can function successfully in an interdisciplinary environment. This qualification aims to equip students with the applied competencies that are required by individuals who work in education settings where they provide physical education through sports programmes and promote principles of good management in sports in order to improve the performance of athletes and sports teams. The qualification further provides students with basic introductory knowledge and cognitive and conceptual tools, and practical techniques required for higher education studies in sports sciences and education.

The ideal candidates hold certificates that the University deems to be equivalent to the National Senior Certificate with an APS of 20. Students who are passionate about sports and physical education excel in this programme. It is the ideal programme for student athletes and professional sports people who want to further their studies while competing in sporting events.

Many young people who have proven sports talents and the ability to learn at an advanced level, but do not meet the entry requirements for study at a diploma or degree level, develop those talents into learning and career pathways. Very few schools in South Africa have qualified sports teachers. The Higher Certificate is needed to provide an entry point into higher education training as the first step to possible career pathways in sports coaching, administration or teaching.

Faculty Notes

English will be the language of teaching and learning (including lectures, tutorials and assessments) for all academic modules in the undergraduate programmes, except in cases where modules or programmes require the use of a language other than English. Modules that provide professional preparation requiring separate English and Afrikaans classes will be identified and will be explicitly listed as such.

The Faculty of Education at the University of Pretoria continues to develop into one of the largest and most diverse units in South Africa for the initial and advanced training of education professionals from across the world. A distinguishing characteristic of the Faculty is that it not only trains pre-service teachers but also educational psychologists, principals, researchers, programme evaluators, curriculum designers, computer education and training experts, assessment specialists, education policy analysts, community development workers and education law advisors working in national and international agencies and organisations.
