

# University of Pretoria Yearbook 2016

## Analytical chemistry A 706 (CMY 706)

**Qualification** Postgraduate

**Faculty** [Faculty of Natural and Agricultural Sciences](#)

**Module credits** 10.00

**Programmes** [BScHons Chemistry](#)

**Contact time** 6 lectures per week for 4 weeks, 1 discussion class per week for 4 weeks

**Language of tuition** English

**Academic organisation** Chemistry

**Period of presentation** Semester 1 or Semester 2

### Module content

Selected aspects of: Mass spectrometry: ion  
sources, analysers, detectors, isotope ratios, accurate mass, ion fragmentation, tandem mass  
spectrometry. Chromatography: theory and instrumentation of gas, liquid and supercritical fluid  
chromatography, multidimensional systems and coupling to mass spectrometry.

The information published here is subject to change and may be amended after the publication of this information. The [General Regulations \(G Regulations\)](#) apply to all faculties of the University of Pretoria. It is expected of students to familiarise themselves well with these regulations as well as with the information contained in the [General Rules](#) section. Ignorance concerning these regulations and rules will not be accepted as an excuse for any transgression.
