Module content

ICT 401 focuses on the specialised selection, utilisation and development of appropriate designs and levels of single purpose and multipurpose learning support and assessment using various technologies in teaching. The module makes use of specialised software in order to assist educators in designing learning materials in their field(s) of specialisation, finding information, exploring the Internet and using an electronic portfolio. As pre-requisite to this module students need to have demonstrated advanced technological skills that surpasses the outcomes of ICT 400.
