BA Music Music (01130072)

Duration of study	3 years
Total credits	373
Contact	Prof AF Johnson alexander.johnson@up.ac.za +27 (0)124202316

Programme information

The aim of the programme is to make students musically literate and to develop their practical music-making skills. They also learn to understand and appreciate many facets of the theory and history of music and are trained as capable classroom teachers. Apart from the music aspects of this programme, students register for other BA modules in which they acquire the requisite knowledge, skills and views of those disciplines.

Closing date for applications: 30 June annually (late applicaitons on request).

Admission requirements

- Candidates who achieved an APS of 30 in Grade 11 and comply with the minimum subject requirements and achievement levels of these study programmes will automatically be granted placement in the study programmes subject to the availability of space. The above-mentioned is not applicable to selection programmes.
- To retain admission learners will be expected to obtain an APS of at least 28 in Grade 12. Prospective students who have already been granted provisional admission in these study programmes but obtained at least an APS of 27 in Grade 12 will be considered by the Admission Committee should space be available. The Admission Committee of the Faculty of Humanities will consider these students once the results of the National Benchmark Test (NBT) are available and depending on the availability of space.
- The Faculty will assess satisfactory performance in the NBT in the light of its commitment to ensure that an appropriate proportion of the applicants will be drawn from the historically disadvantaged category of the population.
- Applicants with an APS of 30 but who do not comply with the subject requirements must write the NBT.
- Life Orientation is excluded when calculating the APS.
- An APS of 26 as well as Departmental selection is required for BA (Music).

Additional requirements

Departmental selection is required for this programme.

Admission is subject to an interview and to a test in the student's instrument and if deemed necessary by the head of the department, in writing skills. Expected standard: Grade V Practical (Unisa/Royal Schools/Trinity).

Other programme-specific information

- Students who are deemed NOT to be at risk of their level of academic literacy, are exempted from ALL 110 and ALL 125.
- See Regulations and Syllabi of the Faculty of Natural and Agricultural Sciences for information regarding prerequisites for relevant modules.
- Students are required to attend the weekly performance class and the fortnightly seminars. Students whose instrument is an orchestral instrument for the module MPM must play in the UP Symphony Orchestra or other ensembles as determined by the Department – it will count as 10% of their examination mark. See the detailed description of the MPM modules in the list of modules.

Module content

Part 1: *Sociology of work: Globalisation*

The contemporary process of globalisation at a world level impacts on the process of change and economic development. This section will discuss processes and debates associated with economic globalisation and the global dominance of finance capital in the late 20th and early 21st century. We will review contemporary debates associated with these issues.

Part 2: *Gender, family and households*

This section focuses on theories and issues relevant to the understanding of households, families and gender. It addresses thematics such as dynamic family structures, poverty, the survival strategies of poor households, gender-based violence and the ways in which the aforementioned affect family life and forms as well as children and youth in particular. A special emphasis is placed on exploring these issues in a Southern African context.

Module content

Part 1: *Demography, health and society*

This section explores the dynamic relationship between demography and health, with examples drawn from South African and international case studies. The substantial increase in world population during the past century compounds key issues faced by contemporary societies. Interplay between demographic processes, such as morbidity, mortality, fertility and mobility, impact on the size of a population. In turn, these are to an extent shaped by the structure of a population as well as the cultural context of a society. Central to this are concerns around health and disease.

Part 2: *Cultural Sociology*

This section explores themes in cultural sociology, with an emphasis on the ways in which meaning is constructed in everyday life by individuals as well as collectives, on the one hand, and the intersection between culture and institutional forms and social structure on the other. Students will be introduced to the work of some of the key thinkers in the field, and will be provided with the opportunity to write an independent essay on a theme in cultural sociology.

Module content

This module deals with a community psychological perspective on human behaviour and psychological interventions and also critically explores the contribution of various perspectives in psychology. The module focuses on themes such as definitions of key concepts, principles and aims of community psychology, and the role of the community psychologist as well as the impact of earlier thought frameworks on contemporary perspectives. The implications of these ideas for practical initiatives focussed on mental health in communities, are discussed. The module further focuses on critical psychology. Critical psychology is an orientation towards psychology that is critical towards the assumptions and practices of psychology as it is practiced in the mainstream. It attempts to address power issues as they manifest in the practice of mainstream psychology. The focus is on examining how the practice and theories of mainstream psychology contribute to these power issues impacting on marginalised groups.

Analysis 310 (WTW 310)

Module credits 18.00

Service modules Faculty of Education
Faculty of Economic and Management Sciences
Faculty of Humanities

Prerequisites WTW 220

Contact time 2 lectures per week, 1 tutorial per week

Language of tuition Double Medium

Academic organisation Mathematics and Applied Maths

Period of presentation Semester 1

Module content

Topology of finite dimensional spaces: Open and closed sets, compactness, connectedness and completeness. Theorems of Bolzano-Weierstrass and Heine-Borel. Properties of continuous functions and applications. Integration theory for functions of one real variable. Sequences of functions.

Algebra 381 (WTW 381)

Module credits 18.00

Service modules Faculty of Education
Faculty of Economic and Management Sciences
Faculty of Humanities

Prerequisites WTW 114 and WTW 211

Contact time 1 tutorial per week, 2 lectures per week

Language of tuition Double Medium

Academic organisation Mathematics and Applied Maths

Period of presentation Semester 1

Module content

Group theory: Definition, examples, elementary properties, subgroups, permutation groups, isomorphism, order, cyclic groups, homomorphisms, factor groups. Ring theory: Definition, examples, elementary properties, ideals, homomorphisms, factor rings, polynomial rings, factorisation of polynomials. Field extensions, applications to straight-edge and compass constructions.

Numerical analysis 383 (WTW 383)

Module credits 18.00

Service modules Faculty of Engineering, Built Environment and Information Technology
Faculty of Economic and Management Sciences
Faculty of Humanities

Prerequisites WTW 114, WTW 124 and WTW 211

Contact time 2 lectures per week, 1 practical per week

Language of tuition Double Medium

Academic organisation Mathematics and Applied Maths

Period of presentation Semester 2

Module content

Direct methods for the numerical solution of systems of linear equations, pivoting strategies. Iterative methods for solving systems of linear equations and eigenvalue problems. Iterative methods for solving systems of nonlinear equations. Introduction to optimization. Algorithms for the considered numerical methods are derived and implemented in computer programmes. Complexity of computation is investigated. Error estimates and convergence results are proved.

Geometry 389 (WTW 389)

Module credits 18.00

Service modules Faculty of Engineering, Built Environment and Information Technology
Faculty of Education
Faculty of Humanities

Prerequisites WTW 211

Contact time 2 lectures per week, 1 tutorial per week

Language of tuition Double Medium

Academic organisation Mathematics and Applied Maths

Period of presentation Semester 2

Module content

Axiomatic development of neutral, Euclidean and hyperbolic geometry. Using models of geometries to show that the parallel postulate is independent of the other postulates of Euclid.

isiZulu 310 (ZUL 310)

Module credits 30.00

Service modules	Faculty of Engineering, Built Environment and Information Technology Faculty of Education
Prerequisites	ZUL 210, ZUL 220 will be required for students who completed ZUL 110, ZUL 120 at year level 1 and ZUL 211, AFT 220 will be required for students who completed ZUL 111, AFT 121 at year level 1
Contact time	1 discussion class per week, 2 lectures per week

Spanish: Intermediate (3) 311 (SPN 311)

Module credits	30.00
Prerequisites	SPN 221
Contact time	1 lecture per week, 4 discussion classes per week
Language of tuition	English
Academic organisation	Modern European Languages
Period of presentation	Semester 1

Module content

A comprehensive review of Spanish grammar is presented in order to increase language proficiency with special emphasis on the productive activities of the language, namely speaking and writing. It also offers an introductory approach to Hispanic history. This module complies with the requirements for level B2.1 set by the "Common European Framework of Reference for Languages".

Spanish: Intermediate (4) 321 (SPN 321)

Module credits	30.00
Prerequisites	SPN 311
Contact time	1 lecture per week, 4 discussion classes per week
Language of tuition	English
Academic organisation	Modern European Languages
Period of presentation	Semester 2

Module content

This module continues with the presentation of a comprehensive review of Spanish grammar in order to increase language proficiency with special emphasis on the interactive activities of the language, namely spoken and written interaction. It also offers an introductory approach to Hispanic literature. This module complies with the requirements for level B2.2 set by the “Common European Framework of Reference for Languages”.

African languages literature: Capita selecta 320 (AFT 320)

Module credits 30.00
