## General information

### Language policy

The medium of instruction will be English. However, should circumstances allow it, an MPhil module may be presented in Afrikaans. The Dean, in consultation with the relevant head of department, determines the language policy.

### Period of registration

At the commencement of a particular module students must be registered for that module and attend the lectures. Alternatively, the permission of the programme coordinator or head of the department should be obtained before a student may be allowed to follow a specific module in a another year of study.

### Limiting of modules on offer in a particular academic year and availability to foreign students

The Dean determines which modules will be presented each year, taking into consideration the availability of lecturing personnel, space and financial implications and/or other circumstances. The Dean may, on recommendation of the relevant head of department, determine the maximum number of registrations for a specific elective module in terms of the guidelines referred to in paragraph (a). The Dean may also, on recommendation of the relevant head of department, determine that a particular LLM or MPhil module will not be offered where on the first day of lectures four or fewer students are registered for such module.

In the case of foreign students additional requirements may be set by the Dean and the modules available to such students may also be limited.

### Replacement of modules

The Dean may on recommendation of the relevant Head of Department allow a student to replace one prescribed /MPhil module for a particular LLM/MPhil programme with another LLM/MPhil module where such an exception is not otherwise permitted, on condition that good cause is shown why such an exception is required.

### Credit for modules completed at another institution

The Dean may, on the recommendation of the relevant head of department, credit a student for a maximum of two modules completed at another institution on condition that it complies with the requirements of this Faculty. Where such modules do not bear the same titles as modules offered at this Faculty, modules with substantially the same content as determined by the relevant head of department may be granted credit in their place, or where, in the absence of such closely related modules, modules that are still relevant within the broad ambit of a specific MPhil degree may be granted credit under special codes for the purposes of such a degree. Additional requirements may also be set before any such module will be granted credit in order to ensure compliance with the requirements of this Faculty.

### Credit for another degree

Note that with regard to the above paragraphs, credit will not be given for modules which form part of another degree where the student has already complied with the requirements of such a degree. This rule is also applicable in instances where the student is currently also registered for another degree.

### Re-registration for modules

A student may not register more than twice for the same module. In order to pass a module the student must obtain a final mark of 50%.
