## MSc Option: Ruminant Health (Coursework) (08251012)

**Duration of study** 3 years

**Total credits** 200

### Programme information

This programme is offered by the Department of Paraclinical Sciences.

This degree programme underlines the major health and production considerations in domesticated ruminants. It caters for the needs of candidates who wish to extend their knowledge and skills that they have gained during their undergraduate training and aims to allow them to practise at a higher level.

The curriculum consists of compulsory modules as well as a mini-dissertation. It is primarily a web-based modular degree programme. The MSc degree is conferred by virtue of the successful completion of prescribed modules in the curriculum and a mini-dissertation. Coursework: 60%; Mini-dissertation: 40%.

Also consult the General Regulations. Students are required to confirm whether a module will be presented in any particular year. This enquiry should be directed to the relevant head of department according to the syllabi information provided in the list of modules.

### Admission requirements

Subject to the stipulations of the applicable General Regulations, a BVSc, a four-year BSc in Agriculture (Animal Science), Microbiology, Zoology or Entomology or a BSc(Hons) in Microbiology, Zoology or Entomology or an equivalent degree is required.

### Additional requirements

In certain cases, it remains the prerogative of the head of department to require, in addition to the entrance requirements already mentioned, the successful completion of an admissions test before registration. A student may also be required to pass a proficiency test in English (TOEFL) at an acceptable level.

### Examinations and pass requirements

If a student fails a module, he/she will have to repeat the module the following year. A module cannot be repeated more than twice.

### Research information

Consult the General Regulations.

On an appropriate topic depending on the field of interest of the student, a research project of limited scope must be undertaken and written in the format of a mini-dissertation to fulfil the requirements of the MSc. The research topic is determined in consultation with the supervisor and head of department and the research project must be approved according to Faculty guidelines.

Before or together with the mini-dissertation, a student must submit at least one draft article for publication in an acknowledged and accredited journal. The draft article must be based on the research for the mini-dissertation and must be acceptable to the supervisor and meet subsidy requirements. Proof of submission of the article from the relevant journal editorial office must be submitted together with the final bound mini-dissertation.

## Pass with distinction

In order to obtain the degree with distinction, 75% in the mini-dissertation and a cumulative average of 75% in the core modules provided that a minimum pass mark of 60% in all the core modules are required.

# Curriculum: Year 1

**Minimum credits: 189**

## Fundamental modules

Small stock health 801 (SSH 801) - Credits: 40.00

Bovine herd health 801 (BHH 801) - Credits: 40.00

## Core modules

Ruminant health 801 (RUM 801) - Credits: 40.00

Mini-dissertation: Ruminant health 890 (RUM 890) - Credits: 90.00

Research methodology 812 (VRM 812) - Credits: 9.00

## Elective modules

Pathology: Wildlife 806 (PAT 806) - Credits: 28.00

Necropsy technique and interpretation 807 (PAT 807) - Credits: 28.00

Ophthalmological pathology 808 (PAT 808) - Credits: 20.00

Selected infectious diseases: Pigs 815 (SID 815) - Credits: 15.00

Veterinary industrial pharmacology 800 (VIP 800) - Credits: 50.00

Veterinary public health: Meat hygiene 881 (VPH 881) - Credits: 40.00

Veterinary public health: Poultry food hygiene 882 (VPH 882) - Credits: 40.00

Veterinary public health: Veterinary milk hygiene 883 (VPH 883) - Credits: 40.00

Veterinary public health: Environmental health and biosecurity 884 (VPH 884) - Credits: 40.00

Advanced fundamentals of pharmacology 876 (FAK 876) - Credits: 30.00

Clinical pharmacology 877 (FAK 877) - Credits: 30.00

Basic veterinary epidemiology 851 (EPL 851) - Credits: 10.00

Biostatistics in veterinary science 852 (EPL 852) - Credits: 20.00

Analytical veterinary epidemiology 853 (EPL 853) - Credits: 20.00

Animal health information management 855 (EPL 855) - Credits: 5.00

Scientific reasoning in veterinary epidemiology 856 (EPL 856) - Credits: 5.00

Reproductive physiology 801 (GSK 801) - Credits: 20.00

Assisted reproduction 802 (GSK 802) - Credits: 30.00

Female infertility 803 (GSK 803) - Credits: 20.00

Male breeding soundness and andrology 804 (GSK 804) - Credits: 20.00

Reproduction: Capita selecta 805 (GSK 805) - Credits: 20.00

Small stock health 801 (SSH 801) - Credits: 40.00

Ruminant health 801 (RUM 801) - Credits: 40.00

Bovine herd health 801 (BHH 801) - Credits: 40.00

Poultry health and production 871 (PHP 871) - Credits: 32.00

Veterinary toxicology: Organ/systems toxicology 801 (TOK 801) - Credits: 30.00

Mechanisms of disease 871 (PAT 871) - Credits: 20.00

Histology 800 (HIS 800) - Credits: 20.00

## Curriculum: Final year

**Minimum credits: 189**

### Fundamental modules

Small stock health 801 (SSH 801) - Credits: 40.00

Bovine herd health 801 (BHH 801) - Credits: 40.00

### Core modules
