Programme information

This three-year full-time programme is aimed at those interested in careers in the sport and leisure industries. A broad knowledge base provides graduates with understanding and skill sets to interrogate, create, promote, lead and manage the potential, promise, possibilities and power of contemporary globalised sport and leisure. Students are guided toward specialisation in the areas of sports management, sports psychology, sport and leisure in society, or sports coaching sciences. This will prepare graduates for employment in public or private sectors in contexts of commercialised and professional sport, sports development, community development and mass participation, sports coaching and facilitating psycho-social wellness through sport and leisure.

On completion of this specialisation area (Option: Sports Psychology) a graduate will demonstrate knowledge and skills related to sport, exercise and performance psychology. Graduates may find employment as relationship facilitators, coaches and facilitators of learning in sport, exercise and leisure contexts. Combining this area of specialisation with Psychology as elective could lead to postgraduate specialisation in Sports Psychology.

Closing date for applications: 30 September annually.
