Programme information

This programme offers integrated academic, practical and professional training in counselling psychology.

Closing date for applications: 31 May annually.

The programme is a one-year full-time programme and is based on the researcher(50%)-practitioner(50%) model. All courses within all the modules of the researcher and practitioner training need to be passed to obtain the MA (Counselling Psychology) degree.

Once a student has successfully completed the MA (Counselling Psychology) degree, such student can apply for registration as an intern counselling psychologist with the Professional Board for Psychology at the Health Professions Council of South Africa (HPCSA) to do a one year full-time internship in Counselling Psychology. After success-fully completing the internship in counselling psychology and the board exam of the Professional Board for Psychology at the HPCSA, an intern counselling psychologist can apply for registration as a counselling psychologist with the Professional Board for Psychology at the HPCSA. Such registration is subject to the regulations of the Professional Board for Psychology at the time of registration.

A. Researcher training
Researcher training entails 50% of the MA (Counselling Psychology) programme. During the two-year period, consisting of one-year academic training and one-year internship, students are expected to sucessfully write a research proposal, conduct a research project and to write a mini-dissertation (VOS 895).

B. Practitioner training
Practitioner training entails 50% of the MA (Counselling Psychology) programme. During the first year of the course academic and practical training is done. The academic training is done through four core modules namely: Fundamentals of Psychology (SLK 801), Psychological assessment (SLK 806), Counselling Psychology (SLK 802) and Community Psychology (SLK 804) .The training is delivered by means of didactic instruction and/or experiential learning. The practical training is arranged by the Department of Psychology on a yearly basis.

C. Professional development
Besides the researcher and practitioner training, the professional development of the students is addressed on a continious basis in all modules. The professional development of students entails professional practice and professional identity development. The professional practice component focuses on the ethical and legal framework in which counselling psychologists practice, while professional identity development focuses on the “person” of the prospective counselling psychologist, the student.
