Programme information

This programme provides theological training and formation aimed at the needs of churches. It comprises two aspects, namely a general denominational aspect and a specific denominational aspect. The structure of the programme is determined by a balance between the (1) Biblical scientific dimensions, (2) historical and systematic theology and (3) applied dimensions in the field of theology.

The outcome that the programme aims to achieve, is theoretically supported formation aimed at a broad spectrum of ministerial needs. For this purpose certain elements of the programme are presented in partnership with churches that support the programme.

A student who registers for this programme has to submit his or her curriculum to the Dean for approval at the beginning of each year.

- A student may, with the consent of the Dean, exceed the number of modules per study year by two semester modules or one year module.
- Recognition of modules already passed: A maximum of two semester modules from another faculty will be approved by the Dean, on condition that it is of adequate credit value and not yet presented for a completed degree.
- CYE is not taken into account.
- OST 410 comprises an independent study on a subject in any of the disciplines of the BDiv (excluding Practical Formation) under the supervision of a lecturer of the relevant department.
