

## University of Pretoria Yearbook 2020

## Rock engineering 722 (GTX 722)

**Qualification** Postgraduate

Faculty of Natural and Agricultural Sciences

Module credits 20.00

**Programmes** BScHons Engineering and Environmental Geology Engineering Geology

**Prerequisites** No prerequisites.

**Contact time** 2 practicals per week (4 weeks), 4 lectures per week

**Language of tuition** Module is presented in English

**Department** Geology

Period of presentation Year

## Module content

Mapping, description (core logging and discontinuity surveys) and classification of rock masses; engineering properties of rock masses including deformability, shear strength of discontinuities, in situ strength and permeability of rock masses; effects, theoretical derivation and practical measurements of in situ stresses.

The information published here is subject to change and may be amended after the publication of this information. The **General Regulations** (**G Regulations**) apply to all faculties of the University of Pretoria. It is expected of students to familiarise themselves well with these regulations as well as with the information contained in the **General Rules** section. Ignorance concerning these regulations and rules will not be accepted as an excuse for any transgression.
