## Reactor materials engineering 786 (MUA 786)

|                               |   |
|-------------------------------|---|
| <b>Qualification</b>          | Postgraduate  |
| <b>Faculty</b>                | <a href="#">Faculty of Engineering, Built Environment and Information Technology</a>                  |
| <b>Module credits</b>         | 16.00   |
| <b>Programmes</b>             | <a href="#">BEngHons Mechanical Engineering</a><br><a href="#">BSchHons Applied Science Mechanics</a> |
| <b>Prerequisites</b>          | MUA 785 Reactor materials engineering 785   |
| <b>Contact time</b>           | 21 contact hours per semester   |
| <b>Language of tuition</b>    | Module is presented in English  |
| <b>Department</b>             | Mechanical and Aeronautical Engineering   |
| <b>Period of presentation</b> | Semester 2  |

### Module content

Creep deformation, fracture processes and metallurgical fracture mechanics, fatigue fracture in nuclear materials, fabrication processes of nuclear materials.
