Module content

*Requires departmental selection

This module offers occupational related preparation by providing an opportunity for students to conceptualise, research, develop and manage a real world application of skills and knowledge within the broader creative and art spheres. Students will apply procedural and conceptual knowledge through their participation in a community engagement project. The module will hone students' skills in the entrepreneurial, managerial and promotional aspects of their personal art practice. An opportunity for an internship within the creative or educational sector will provide insight into a selected professional art practice.
