

University of Pretoria Yearbook 2020

BScHons Biotechnology (02240393)

Minimum duration of study 1 year

Total credits 135

NQF level 08

Programme information

BScHons (Biotechnology) is a unique interdepartmental programme aimed at enabling students to pursue their interest in molecular biotechnology through relevant research areas offered within fields of biochemistry, plant science, microbiology and plant pathology, plant production, as well as genetics. Students within this programme will be registered and will conduct their studies within the department of their choice. A student's choice of research programme will determine which of the respective departments will mentor their honours degree programme.

Renewal of registration

- i. Subject to exceptions approved by the Dean, on the recommendation of the relevant head of department, a student may not sit for an examination for the honours degree more than twice in the same module.
- ii. A student for an honours degree must complete his or her study, in the case of full-time students, within two years and, in the case of after-hours students, within three years of first registering for the degree. Under special circumstances, the Dean, on the recommendation of the relevant head of department, may give approval for a limited extension of this period.

In calculating marks, General Regulation G.12.2 applies.

Apart from the prescribed coursework, a research project is an integral part of the study.

Admission requirements

- BSc (Biotechnology) or equivalent degree with the following modules GTS 351, BCM 356 and MBY 364.
- An average of at least 60% at final-year level.

Pass with distinction

The BScHons degree is awarded with distinction to a candidate who obtains a weighted average of at least 75% in all the prescribed modules and a minimum of 65% in any one module.

Curriculum: Final year

Minimum credits: 135

Fundamental credit: 16

Core credits: 30

Elective credits: 105

Additional information:

- The curriculum for the balance of the credits will be determined by the heads of the participating departments.
- Additional modules may be prescribed by the head of the department where deemed necessary. Honours students may also be required to complete a biometry or equivalent module, if they have not already done so during their undergraduate training.

Core modules

[Biotechnology in the workplace 701](#) (BTW 701) - Credits: 15.00

[Molecular and cellular biology 721](#) (MLB 721) - Credits: 15.00

Elective modules

[Research project and report 773](#) (BCM 773) - Credits: 60.00

[Research methods 774](#) (BCM 774) - Credits: 30.00

[Molecular techniques 705](#) (BOT 705) - Credits: 15.00

[Research report 782](#) (BOT 782) - Credits: 60.00

[Research project 703](#) (GTK 703) - Credits: 60.00

[Research methods 705](#) (GTK 705) - Credits: 30.00

[Research methods 751](#) (MCP 751) - Credits: 30.00

[Research project and literature study 754](#) (MCP 754) - Credits: 60.00
