

## University of Pretoria Yearbook 2021

## Reproductive physiology of animals 702 (RPT 702)

Qualification	Postgraduate
Faculty	Faculty of Veterinary Science
Module credits	30.00
NQF Level	08
Programmes	PGDip in Animal Welfare
	PGDip in Production Animals
	PGDip in State Veterinary Medicine
	PGDip in Veterinary Clinical Sciences
	PGDip in Veterinary General
Language of tuition	Module is presented in English
Department	Production Animal Studies
Period of presentation	Year

## Module content

Students will gain advanced theoretical knowledge of general reproductive endocrinology and physiology of animals. It includes detailed knowledge and application of the structures of different hormone groups, forms of storage, transportation, methods of action and secretion control mechanisms: hormonal control of female reproductive cycles; fertilisation, sexing, gestation, pathogenesis of teratogenic deviations and partus, the puerperal period and re-implantation; male reproductive endocrinology and physiology; examining of fresh and frozen semen, including advanced methods; the use of hormone profiles to monitor gestation and cycles, and artificial breeding.

The information published here is subject to change and may be amended after the publication of this information. The General Regulations (G Regulations) apply to all faculties of the University of Pretoria. It is expected of students to familiarise themselves well with these regulations as well as with the information contained in the General Rules section. Ignorance concerning these regulations and rules will not be accepted as an excuse for any transgression.
