

University of Pretoria Yearbook 2023

Bachelor of Information Technology Honours (Information Systems) [BITHons] (12245000)

Department Informatics

Minimum duration of study 1 year

Total credits 120

NQF level 08

Programme information

Refer also to G16-G29.

Admission requirements

1. BIT (Information Systems) degree or an equivalent Information Systems degree.
2. Weighted average of at least 60% (BIT(IS) students from University of Pretoria) or a weighted average of at least 70% (students from other institutions) over all third-year modules in Informatics or Information Systems.

Other programme-specific information

Subject to the provisions of G18.3, a full-time student must complete his or her studies for an honours degree within two academic years (four semesters) and a part-time student within three academic years (six semesters) after first registration for the degree. However, the Dean may, on the recommendation of the relevant head of department, extend the period of study in both cases by a maximum of two semesters.

Examinations and pass requirements

Refer also to G18 and G26.

1. The examination in each module for which a student is registered, takes place during the normal examination period after the conclusion of lectures (i.e. usually October/November or May/June).
2. G18(1) applies with the understanding that under exceptional circumstance an extension of a maximum three years may be approved: provided that the Dean, on recommendation of the relevant head of department, may approve a stipulated limited extension of this period.
3. A student must obtain at least 50% in an examination for each module where no semester or year mark is required. A module may only be repeated once.
4. In modules where semester or year marks are awarded, a minimum examination mark of 40% and a final mark of 50% is required.
5. No supplementary or special examinations are granted at postgraduate level.

Pass with distinction

The degree is conferred with distinction if students registered for the degree for the first time, complete the degree within the minimum prescribed time and pass all modules with a weighted average of 75% (not rounded).

General information

University of Pretoria Programme Qualification Mix (PQM) verification project

The higher education sector has undergone an extensive alignment to the Higher Education Qualification Sub-Framework (HEQF) across all institutions in South Africa. In order to comply with the HEQSF, all institutions are legally required to participate in a national initiative led by regulatory bodies such as the Department of Higher Education and Training (DHET), the Council on Higher Education (CHE), and the South African Qualifications Authority (SAQA). The University of Pretoria is presently engaged in an ongoing effort to align its qualifications and programmes with the HEQSF criteria. Current and prospective students should take note that changes to UP qualification and programme names, may occur as a result of the HEQSF initiative. Students are advised to contact their faculties if they have any questions.

Curriculum: Final year

Minimum credits: 120

Core modules

Research report 780 (INF 780)

Module credits	30.00
NQF Level	08
Contact time	1 other contact session per week, 1 web-based period per week
Language of tuition	Module is presented in English
Department	Informatics
Period of presentation	Year

Module content

A research paper on a topic from the field of informatics.

Elective modules

Capita selecta 713 (INF 713)

Module credits	15.00
NQF Level	08
Prerequisites	No prerequisites.
Contact time	1 web-based period per week, 8 lectures per week
Language of tuition	Module is presented in English
Department	Informatics
Period of presentation	Semester 1 or Semester 2

Module content

This module will be used to present special, relevant topics within the expertise of the department.

Enterprise architecture 715 (INF 715)

Module credits	15.00
NQF Level	08
Prerequisites	INF 788
Contact time	1 lecture per week
Language of tuition	Module is presented in English
Department	Informatics
Period of presentation	Semester 1 or Semester 2

Module content

Enterprise Architecture (EA) involves comprehensive business frameworks that capture the complexity of modern organisations, providing a blue-print for co-ordinating and integrating all components of an organisation. The module will illustrate all the aspects of EA, discuss the need for EA as well as various frameworks, methods and techniques of EA.

Capita selecta 716 (INF 716)

Module credits 15.00

NQF Level 08

Prerequisites No prerequisites.

Contact time 1 lecture per week

Language of tuition Module is presented in English

Department Informatics

Period of presentation Semester 1 or Semester 2

Module content

This module will be used to present special, relevant topics within the expertise of the department.

Data warehousing 785 (INF 785)

Module credits 15.00

NQF Level 08

Prerequisites No prerequisites.

Contact time 1 lecture per week, 1 other contact session per week, 1 web-based period per week

Language of tuition Module is presented in English

Department Informatics

Period of presentation Semester 1 or Semester 2

Module content

- Advanced database design
- Advanced database management
- Database architectures and languages
- Data warehousing and data marts
- Current trends

Management of ICT projects 787 (INF 787)

Module credits 15.00

NQF Level 08

Prerequisites No prerequisites.

Contact time	1 lecture per week, 1 other contact session per week, 1 web-based period per week
---------------------	---

Language of tuition	Module is presented in English
----------------------------	--------------------------------

Department	Informatics
-------------------	-------------

Period of presentation	Semester 1 or Semester 2
-------------------------------	--------------------------

Module content

Main emphasis will be on IS project management using a case study to get practical experience in project management.

Information systems development 788 (INF 788)

Module credits	15.00
-----------------------	-------

NQF Level	08
------------------	----

Prerequisites	No prerequisites.
----------------------	-------------------

Contact time	1 lecture per week, 1 web-based period per week
---------------------	---

Language of tuition	Module is presented in English
----------------------------	--------------------------------

Department	Informatics
-------------------	-------------

Period of presentation	Semester 1 or Semester 2
-------------------------------	--------------------------

Module content

Study and evaluation of different systems development methodologies.

Human-computer interaction 790 (INF 790)

Module credits	15.00
-----------------------	-------

NQF Level	08
------------------	----

Prerequisites	No prerequisites.
----------------------	-------------------

Contact time	1 lecture per week, 1 web-based period per week
---------------------	---

Language of tuition	Module is presented in English
----------------------------	--------------------------------

Department	Informatics
-------------------	-------------

Period of presentation	Semester 1 or Semester 2
-------------------------------	--------------------------

Module content

This module will be used to present special, relevant topics within the expertise of the department.

Applied data science 791 (INF 791)

Module credits	15.00
-----------------------	-------

NQF Level	08
------------------	----

Prerequisites	No prerequisites.
----------------------	-------------------

Contact time	1 lecture per week, 1 other contact session per week, 1 web-based period per week
---------------------	---

Language of tuition	Module is presented in English
----------------------------	--------------------------------

Department	Informatics
-------------------	-------------

Period of presentation	Semester 1 or Semester 2
-------------------------------	--------------------------

Module content

In this information age a lot of data is captured every day and recorded in databases, but the wealth of this data is kept locked in the databases because relatively little mining is performed on this data. This module introduces you to data mining in terms of:

- The data mining process - how do you mine data?
- The data mining techniques - an overview of the data mining techniques that can be used;
- Practical data mining experience - a practical project mining real industry data to find unknown patterns; and
- Product overviews - product demonstrations by data mining vendors.

Management of information systems 794 (INF 794)

Module credits	15.00
-----------------------	-------

NQF Level	08
------------------	----

Prerequisites	No prerequisites.
----------------------	-------------------

Contact time	1 lecture per week, 1 web-based period per week
---------------------	---

Language of tuition	Module is presented in English
----------------------------	--------------------------------

Department	Informatics
-------------------	-------------

Period of presentation	Semester 1 or Semester 2
-------------------------------	--------------------------

Module content

Business process management; ERP systems; IT trends.

Information and communications technology law 780 (KUB 780)

Module credits	15.00
-----------------------	-------

NQF Level	08
------------------	----

Service modules	Faculty of Economic and Management Sciences
------------------------	---

Prerequisites	KRG 110 or BER 210 or BER 310 or BER 410
----------------------	--

Contact time	2 lectures per week
---------------------	---------------------

Language of tuition	Module is presented in English
----------------------------	--------------------------------

Department	Mercantile Law
-------------------	----------------

Period of presentation	Semester 1 or Semester 2
-------------------------------	--------------------------

Module content

a. Introduction to the study of information and communications technology law:

- The place of information and communications technology law in the legal system
- The nature and scope of information and communications technology law
- Sources of information and communications technology law
- Inception and influence of the Internet

b. Regulation of the Internet:

- National/International
- Jurisdiction

c. Aspects of intellectual property law and the Internet

d. E-Commerce activities and the Internet:

- Aspects of jurisdiction and signing of contracts
- Dataprotection and encryption
- Liability of Internet service providers
- Consumer Protection

e. Criminal liability in information and communications technology space

f. Constitutional aspects in information and communications technology space:

- The right to privacy/freedom of expression/information
-

Regulations and rules

The regulations and rules for the degrees published here are subject to change and may be amended after the publication of this information.

The [General Academic Regulations \(G Regulations\)](#) and [General Student Rules](#) apply to all faculties and registered students of the University, as well as all prospective students who have accepted an offer of a place at the University of Pretoria. On registering for a programme, the student bears the responsibility of ensuring that they familiarise themselves with the General Academic Regulations applicable to their registration, as well as the relevant faculty-specific and programme-specific regulations and information as stipulated in the relevant yearbook. Ignorance concerning these regulations will not be accepted as an excuse for any transgression, or basis for an exception to any of the aforementioned regulations.

University of Pretoria Programme Qualification Mix (PQM) verification project

The higher education sector has undergone an extensive alignment to the Higher Education Qualification Sub-Framework (HEQF) across all institutions in South Africa. In order to comply with the HEQSF, all institutions are legally required to participate in a national initiative led by regulatory bodies such as the Department of Higher Education and Training (DHET), the Council on Higher Education (CHE), and the South African Qualifications Authority (SAQA). The University of Pretoria is presently engaged in an ongoing effort to align its qualifications and programmes with the HEQSF criteria. Current and prospective students should take note that changes to UP

qualification and programme names, may occur as a result of the HEQSF initiative. Students are advised to contact their faculties if they have any questions.
