#### Financial and management accounting 811 (GIB 811)

<b>Module credits</b>	10.00
<b>NQF Level</b>	09
<b>Prerequisites</b>	No prerequisite.
<b>Contact time</b>	28 contact hours per 3 week cycle
<b>Language of tuition</b>	Module is presented in English
<b>Department</b>	Gordon Institute of Business Science
<b>Period of presentation</b>	Semester 1 or Semester 2

## Module content

This module is designed to equip participants with the necessary skills to analyse and interpret financial information. Actual financial statements are analysed, and participants are expected to be familiar with real cases in the current financial press. You will become familiar with how financial statements such as balance sheets, income statements, and cash flow statements are structured. Various methods of critically evaluating them in order to make conclusions about the company's financial strength or weakness, and future possibilities such as financial failure or the probability of takeover will be discussed. Management accounting provides managers with timely and appropriate information – firstly in order to understand the cause and behaviour of costs and to meaningfully allocate these costs to products, customers and inventories; secondly to assist in planning, budgeting and decision making; and finally in order to measure performance. This module is intended as an introduction for individuals who will plan, make business decisions and evaluate the performance of business units using information derived from the accounting system.

## Human resource strategy 812 (GIB 812)

<b>Module credits</b>	10.00
<b>NQF Level</b>	09
<b>Prerequisites</b>	No prerequisites.
<b>Contact time</b>	28 contact hours per 3 week cycle
<b>Language of tuition</b>	Module is presented in English
<b>Department</b>	Gordon Institute of Business Science
<b>Period of presentation</b>	Semester 1 or Semester 2

## Module content

This module explains both how human resource systems should support the achievement of strategic objectives in context, and how line managers should manage people to achieve those objectives. Module topics include the management of strategic human resources (aligning HR and business strategy, succession planning, and the war for talent), management of HR-firm infrastructure, training and development, managing employee contributions (performance management and industrial relations), and integrating HR strategies and business strategies. The role of the line manager in managing performance will be considered, and underpinned by an overview of the causes of human behaviour in organisations. The module will include case studies to illustrate unique problems and approaches to HR strategy. You will learn the strategic value of effective management of human resources and how alternative HR strategies deliver different results.

## Marketing 813 (GIB 813)

<b>Module credits</b>	10.00
<b>NQF Level</b>	09
<b>Prerequisites</b>	No prerequisites.
<b>Contact time</b>	28 contact hours per 3 week cycle
<b>Language of tuition</b>	Module is presented in English
<b>Department</b>	Gordon Institute of Business Science
<b>Period of presentation</b>	Semester 1 or Semester 2

## Module content

This module teaches a systematic approach to marketing decision making in order to match continuously changing market opportunities with the internal resources of the company in terms of production capacity, people and finance. Key topics include understanding the market and the customers, analysing marketing opportunities, developing marketing strategies, planning marketing programmes, and assessing new directions for marketing, particularly the impact of e-business. By critically examining an extensive theoretical base of marketing literature, and reviewing local and international case studies, you will develop the skills and insights required to formulate and evaluate an effective marketing strategy within the context of overall corporate objectives. You will evaluate the changing role of marketing in the knowledge economy, and how marketing interfaces with other functional areas within the organisation.

## Operations management 814 (GIB 814)

**Module credits** 10.00

**NQF Level** 09

**Prerequisites** No prerequisites.

**Contact time** 28 contact hours per 3 week cycle

**Language of tuition** Module is presented in English

**Department** Gordon Institute of Business Science

**Period of presentation** Semester 1 or Semester 2

### Module content

This module examines how an organisation's structures, systems and processes contribute to its competitive position. This involves management of the processes whereby inputs such as labour, materials and equipment are converted to products or services that meet customers' needs at an acceptable cost. Improving performance cross-functionally and across the value chain is an important focus. Topics include functional versus corporate operations strategy, operations' reactive role, service-delivery systems design, process choice, quality management and improving operations, time and productivity, aligning operations to markets, and the impact of technology developments on the service-delivery system. You will be able to analyse an operating system's efficiency in terms of process design, capacity and quality of service, and make recommendations to improve its design or operation. You will have a greater appreciation of the need to manage integrated processes across the value chain to achieve business success.

## Integrated business simulation 852 (GIB 852)

**Module credits** 5.00

**NQF Level** 09

**Contact time** 12 contact hours per 3 week cycle

**Language of tuition** Module is presented in English

**Department** Gordon Institute of Business Science

## Module content

This course is based on the premise that everyone has the capacity to succeed in an entrepreneurial setting, although some people may have a greater propensity to succeed than others. The intention of this course is to demystify the phenomenon broadly referred to as entrepreneurship; to make it easily understood as a business concept, readily accessible as a career option and practically applicable as a style of management. The course provides a broad perspective on entrepreneurship and its strategic importance and social relevance. It also provides an understanding of and approach to managing the issues involved in pursuing an entrepreneurial career path. It integrates different aspects of the MBA in developing a business plan for a potential entrepreneurial idea, and thus provides a practical application of concepts dealt with in other MBA courses.

## Global business strategy 861 (GIB 861)

<b>Module credits</b>	0.00
<b>NQF Level</b>	09
<b>Contact time</b>	7 contact hours
<b>Language of tuition</b>	Module is presented in English
<b>Department</b>	Gordon Institute of Business Science
<b>Period of presentation</b>	Semester 1 or Semester 2

## Module content

This module will prepare students for the global elective by examining what makes countries and companies competitive globally. The concepts introduced at the beginning of the first year in the competitive organisation as part of the orientation programme will be re-visited and students will be helped to draw on their entire MBA experience to develop the critical ability to identify factors that enhance and restrain competitiveness. Special attention is given to the relative competitiveness of South Africa and the countries and regions to be visited, with special reference to the industries that will be studied.

## Decision making 862 (GIB 862)

### Module content

This class examines how businesses in the sports and entertainment industry create, capture, and sustain value. Sports and entertainment business differ from more traditional product- or service-based businesses in that the value they create centres mostly around an experience that is often fleeting, delivered in the form of an event. Yet even though the events they deliver are often fleeting, such businesses can also create strong followings of enthusiastic fans and communities that may sustain and enhance their value proposition over time. Sports and entertainment business depend on a diverse array of stakeholders including players, performers, or participants, media partners, sponsors, audiences, and others. All these factors make managing a business in the sports and entertainment industry complex and challenging, but also incredibly interesting. In this class we will examine the strategies and approaches that underlie business success in the sports and entertainment industry.

<b>Language of tuition</b>	Module is presented in English
<b>Department</b>	Gordon Institute of Business Science
<b>Period of presentation</b>	Semester 2

## Module content

This elective on the development of entrepreneurship from the inside-out focuses on three main elements. First, entrepreneurs are faced with a myriad of challenges, including persuading others by displaying their passion, as well as failure, making the role of personal emotion and its regulation during the entrepreneurial journey an important foundational theme. Second, we expand the role of emotion by exploring the cognitive processes of entrepreneurial action through experiential peer coaching activities. Here, students will be challenged to develop their cognitive resources such as adaptability and learning skills related to entrepreneurial action. Lastly, the behavioural dimensions are simplified into intra- and inter-personal meta-skills that individuals need to build the agility, resilience, and social networks essential for entrepreneurial sustainability and success.

#### **Module content**

This elective examines the media as a vital mechanism in connecting different segments of society through information and content generation and dissemination, facilitating interaction, and shaping public opinion and perceptions. As such, the media is understood to be the thread that connects different stakeholders, and that links them with their global environment.

### **General Academic Regulations and Student Rules**

The [General Academic Regulations \(G Regulations\)](#) and [General Student Rules](#) apply to all faculties and registered students of the University, as well as all prospective students who have accepted an offer of a place at the University of Pretoria. On registering for a programme, the student bears the responsibility of ensuring that they familiarise themselves with the General Academic Regulations applicable to their registration, as well as the relevant faculty-specific and programme-specific regulations and information as stipulated in the relevant yearbook. Ignorance concerning these regulations will not be accepted as an excuse for any transgression, or basis for an exception to any of the aforementioned regulations. The G Regulations are updated annually and may be amended after the publication of this information.

### **Regulations, degree requirements and information**

The faculty regulations, information on and requirements for the degrees published here are subject to change and may be amended after the publication of this information.

### **University of Pretoria Programme Qualification Mix (PQM) verification project**

The higher education sector has undergone an extensive alignment to the Higher Education Qualification Sub-Framework (HEQSF) across all institutions in South Africa. In order to comply with the HEQSF, all institutions are legally required to participate in a national initiative led by regulatory bodies such as the Department of Higher Education and Training (DHET), the Council on Higher Education (CHE), and the South African Qualifications Authority (SAQA). The University of Pretoria is presently engaged in an ongoing effort to align its qualifications and programmes with the HEQSF criteria. Current and prospective students should take note that changes to UP qualification and programme names, may occur as a result of the HEQSF initiative. Students are advised to contact their faculties if they have any questions.
