Bachelor of Clinical Medical Practice

A clinical associate is a professional member of the healthcare team who has the necessary knowledge and skills to make a substantial contribution to the South African district health system. Clinical associates are supervised by doctors in the performance of all practice-related activities, including the requisition of diagnostic, therapeutic and other medical services, based on their education, training and experience.

Clinical Associates work mostly in primary healthcare, in community healthcare programmes, clinics, private practices and hospitals. Clinical Associates also have various postgraduate study opportunities such as: Honours in Emergency Medicine, Postgraduate Diplomas in Public Health, HIV/AIDS management, Addiction Care, Community Oriented Primary Care and several more.

The Bachelor of Clinical Medical Practice programme requires 3 years full time study. It involves practical, patient-oriented learning in the health service in four South African provinces.

The ideal candidate is a self-directed learner with a passion for helping people from under-served populations. Disciplined, hard-working students excel.

The Bachelor of Clinical Medical Practice is a unique programme due to early patient contact, and the practical training it provides in the health service. The Bachelor of Clinical Medical Practice is accredited by the Health Professions Council of South Africa (HPCSA)

For more information, please consult the Faculty webpage.

Career Opportunities

Clinical associates, academics and researchers

Programme Code

10130012

Closing Dates

- **SA** - 30/06/2025
- **Non-SA** - 30/06/2025

Admission Requirements

Important information for all prospective students for 2026

The admission requirements below apply to all who apply for admission to the University of Pretoria with a **National Senior Certificate (NSC) and Independent Examination Board (IEB) qualifications**. ?[Click here](#) for this Faculty Brochure.

Minimum requirements

Achievement level			
English Home Language or English First Additional Language	Mathematics	Physical Sciences or Life Sciences	APS
NSC/IEB 4	NSC/IEB 4	NSC/IEB 4	28

For advice on a second-choice programme, please consult a Student Advisor. To make an appointment, send an email to carol.bosch@up.ac.za.

Life Orientation is excluded when calculating the APS.

Applicants currently in Grade 12 must apply with their final Grade 11 (or equivalent) results.

Applicants who have completed Grade 12 must apply with their final NSC or equivalent qualification results.

Please note that meeting the minimum academic requirements does not guarantee admission.

Successful candidates will be notified once admitted or conditionally admitted.

Applicants should check their application status regularly on the UP Student Portal at [click here](#).

Applicants with qualifications other than the abovementioned should refer to the International undergraduate prospectus 2026: Applicants with a school leaving certificate not issued by Umalusi (South Africa), available at [click here](#)..

International students: [Click here](#)

A limited number of places are made available to citizens from countries other than South Africa (applicants who are not South African citizens), with those from SADC countries being given preference. Applicants who have multiple citizenships, including South African citizenship, will be considered to be South African.

Transferring students

A transferring student is a student who, at the time of applying at the University of Pretoria (UP) is/was a registered student at another tertiary institution. A transferring student will be considered for admission based on NSC or equivalent qualification and previous academic performance. Students who have been dismissed from other institutions due to poor academic performance will not be considered for admission to UP.

Closing dates: Same as above

Returning students

A returning student is a student who, at the time of application for a degree programme is/was a registered student at UP, and wants to transfer to another degree at UP. A returning student will be considered for admission based on NSC or equivalent qualification and previous academic performance.

- Students who have been excluded/dismissed from a faculty due to poor academic performance may be considered for admission to another programme at UP, as per faculty-specific requirements.
- Only ONE transfer between UP faculties and TWO transfers within a faculty will be allowed.
- Admission of returning students will always depend on the faculty concerned and the availability of space in the programmes for which they apply.

Closing date for applications from returning students is the same as the above

Note: Any deliberate omission of information, or false information provided by an applicant in the application may result in the immediate cancellation of the application, admission or registration.

Selection Process

Selection criteria are available on the faculty's webpage at: [click here](#).

- **Eighty (80) first-year students are selected annually.**
- First choice candidates will be considered and second choice candidates may be considered in certain categories.

Applicants must also complete the Biographical Information Form.

Minimum duration of study

3 years, full-time

Faculty Notes

Modules will be presented only in English, which is the University's official language of tuition, communication and correspondence.

The Faculty of Health Sciences continues to exemplify and build on the University of Pretoria's vision of being a leading research-intensive university in Africa: it is recognised internationally for its quality, relevance and impact, as well as for creating knowledge, developing people and making a difference locally and globally.

The Faculty is home to 5 500 undergraduate and 1 500 postgraduate students, including medical and dental fellowship training in more than 40 disciplines.

The Faculty's research output has grown, in response to the need for research that is relevant to the improvement of health and health care and advancing medicine in South Africa, Africa and globally.
