1. About VGI Consulting (Pty) Ltd

VGI Consulting (Pty) Ltd. is one of the leading multidisciplinary consulting engineering companies in South Africa specializing in the engineering, construction and project management of Petrochemical, Civil and Structural projects. VGI Consulting is the successor of a consulting engineering practice established in 1965. Our company has more than 45 years of experience in the Engineering, Procurement and Construction Management (EPCM) of petrochemical, civil and structural projects.

VGI specialises in the engineering, construction and project management of multidisciplinary transmission and distribution pipelines, as well as other civil, mechanical, geotechnical, and structural engineering projects. Fields of expertise include high-pressure hydrocarbon overland pipelines, petrochemical bulk storage facilities and firewater systems. With over 45 years of experience in the pipeline engineering industry, VGI Consulting is one of the leading consulting engineering firms in Southern Africa. Our in-house capabilities include civil, mechanical, geotechnical, and structural engineering. Our staff has further extensive experience in project and construction management, as well as procurement for and on behalf of our clients. Together with a team of specialist partners, we have completed numerous high-pressure steel pipelines in Southern Africa, most notably in South Africa and Mozambique.

2. About the bursary

The bursary will cover the total cost of the university tuition fees. The bursary will be awarded annually based on the previous year's academic record.

Requirements/eligibility

- South African citizen.
- Under the age of 30 years.
- Studying full time towards an undergraduate degree in engineering.
- Completed your first year of study.
- Studying at a recognized University in South Africa.
- **NOT** currently a recipient of any other bursary awards.

3. How to Apply

Complete the *application form*, and attach the following documents:

- A detailed CV

- Proof of Identity
