

WISKUNDE MATHEMATICS

---

**DEPARTMENT OF MATHEMATICS AND APPLIED MATHEMATICS**  
**MATHEMATICS MIDWINTER MORNING**

Dave Pepler, Friday 5 August 10:30 – 11:30

---

**NEARLY A TRIANGLE: CHAOS AND NATURE, A PERSONAL VIEW**

---

Exhibition Space, Engineering I (Eats and drinks afterwards)

Dave is best known for his role as the presenter of the popular environmental TV programme “Groen” on "KYKNET". However, the breadth of his involvement in environmental matters is quite staggering extending as it does from the development of best management practices for the Chilean Forestry Industry through to environmental impact assessments both locally as well as elsewhere in Africa. In addition to his visibility in the electronic media, he is the author or co-author of more than 160 popular and semi-popular articles, and 200 popular lectures, press releases, and radio interviews through which he has effectively raised public awareness of the importance of preserving biodiversity, and the social implications of humankind’s stewardship of protected areas.
