

SpringBoard

Crossing the boundary...to university success!

What is SpringBoard?

SpringBoard is an international programme, which equips young people at universities to be more successful during their university years and their subsequent careers. It is being presented at the University of Pretoria as a three-day programme for first year students.

SpringBoard will:

- provide you with the “street smarts” for an effective and successful university experience
- develop your learning skills and to assist you to operate more effectively in the university environment, across disciplinary, cultural, economic and societal boundaries, and prepare yourself for life beyond the university
- provide a unique personal growth opportunity.

SpringBoard is an exciting and dynamic learning experience. Participants will go on visits on and off the campus, be exposed to individuals in real-world situations, engaging in practical activities and exploration with unusual people in interesting places.

SpringBoard is presented by Common Purpose, an international leadership development organization, specializing in cross boundary leadership.

SpringBoard graduates receive a certificate and become part of the international Common Purpose alumni community.

When? Monday 26 June to Wednesday 28 June 2017 – be prepared for three full days

Where? Exhibition Space, Engineering 1 Building, Hatfield Campus, University of Pretoria

Cost? The programme is fully funded by Primedia – no cost to you!

“It is spectacular and so much fun. One expects these events to be like lecture but this one really proved that learning doesn’t happen inside the classroom only.”

Shisha Sekhaolelo, first year student, Wits University
