

## **AlwaysOn**

AlwaysOn is a public Wi-Fi service that is available in all major airports, many shopping malls and most restaurants.

Usually the service is limited, but an unlimited service is now available to UP students with Wi-Fi enabled devices to access the UP website and ClickUp.

To log in, you need to register and create an account. It only takes a few seconds, and requires an e-mail and / or mobile number and a password (which you can create yourself). You can also download the AlwaysOn WiFi App for an automated experience.

For more information on the service and available hotspots, go to [www.alwayson.co.za](http://www.alwayson.co.za).
