BSc (Ecology)

The BSc (Ecology) programme explores how animals and plants interact with each other and the natural environment. It will allow you to contribute to their conservation and solve the challenges threatening life on Earth. If you want to pursue a career in biodiversity conservation, environmental consultancy, land rehabilitation or wildlife management, this programme is for you.

What makes this programme unique?

BSc (Ecology) is the only programme of its kind offered in South Africa and teaching is focused on animals and plants, ecology, geographic information systems and quantitative statistics.

What career opportunities exist for graduates?

As a graduate you can find employment as a conservation officer, environmental consultant or manager, game ranger, research scientist and more.

Which companies employ our graduates?

You can find employment at government agencies concerned with the environment, conservation organisations, state or private game reserves, environmental consultancies and education initiatives, academic and training institutions and many more.
