

Octoplus is a SAS partner that focuses on the JMP statistical software

- ✔ JMP is a Statistical Exploratory tool developed by SAS and is widely used in South Africa and other parts of the world.
- ✔ Octoplus sells the software in Africa, develops custom applications in JMP and offers statistical training based on JMP.

Octoplus is looking for an enthusiastic individual with a strong statistical background to help with customer relations and advising clients on the use of the JMP software.

- ➔ Person needed for 2 or more mornings/afternoons a week.
- ➔ The Octoplus offices are in Brooklyn Pretoria.
- ➔ Contact:
