
Some Research Facilities

Pyrolyser(front), feed bin(behind), blower(back right)
Separation equipment (left back)

Separation equipment with support rack

Pyrolyser(left), feed bin(right, behind), water cooling tower in front will be moved to the right of the feed bin.

Ion Chromatograph

Ion Chromatograph

Bioinert HPLC

LC-Quad-Time of Flight

Atmospheric Pressure Non-thermal Plasma Reactor

Digital Oscilloscope

Plasma reactor

Plasma Discharge

High Voltage DC Power Supply

Successful treatment of phenolic compounds, VOCs, Pharmaceutical drugs, and *E. Coli* in waste water
