

From smart to smarter libraries

Clara M. Chu

Director and Mortenson Distinguished Professor
Mortenson Center for International Library Programs
University of Illinois at Urbana-Champaign Library

MIT Capstone Conference, University of Pretoria and the Carnegie Corporation of New York

www.library.illinois.edu/mortenson

Overview

Explore:

...in order to:

1. understand different ways to consider the notion of “smart” in smarter libraries,
2. learn about smart technologies for libraries, and
3. be mindful of social traits such as inclusivity and equity in designing smarter libraries.

www.library.illinois.edu/mortenson

2

Information Landscape

1. Who creates the content? (any one)
2. What form does information take? (multimedia)
3. What senses engage information? (transliteracy)
4. Where do we access information? (anywhere)
5. Where are information products housed?
(public/private/commercial, personal/institutional collections)
6. Who is accessing information? (diverse and globalized users)
7. How we access information? (analog, digital, mobile)
8. How do we engage with information? (social, networked, individual)

www.library.illinois.edu/mortenson

Evolving Roles (e.g., Academic Library)

	Historical	Emerging	Future
Collections	Just-in-case	Just-in-time	On demand, anytime
Space	Static, mostly for collections	Flexible, user-focused	Embedded in academic units, a collaborative space for Knowmads
User Experience	Unintentional	Experimentation with service design	Academic libraries as campus leaders in community engagement
Reference	In person, over the phone	Digital	Highly automated, mobile
Users	Students, faculty at their home institution	MOOCs, New majority learners, unaffiliated global learners	Community members, Knowmads
Skills	Master's of Library Science, subject specialists	Blended Librarians	Entrepreneurial Blended Librarians
Teaching & Learning	Assist students and faculty with research assignments, drop-in sessions by request	Embedded in colleges, departments, and courses	Blended Librarians
Demonstrating Value	Collection size	Expanding partnerships on campus, create evidence for invisible services	Learning analytics
Relationships with Faculty	Limited, based on research needs	Co-creative, joint research projects	Partnerships with unaffiliated research entrepreneurs

www.library.illinois.edu/mortenson

Smart libraries (any type) – an *evolving* concept

- “Smart” libraries facilitate the integration of digital processes and informational feedback loops in the organizational infrastructure, whereby such integration is a desirable state for “smarter” institutions, i.e., more efficiently organized, resource-friendly, flexible, sustainable, green, and socially inclusive.*
- “smart” refers to efficiency due to the use of technologies and to an automatization of processes to facilitate the working and everyday environment.*

*Adapted from Freyberg, Linda. “Smart Libraries,” July 2, 2018. <http://elephantinthelab.org/smart-libraries/>

www.library.illinois.edu/mortenson

5

Smart and smarter libraries - Global and sustainable

- smart libraries deploy technologies that connect and monitor almost every object in our lives, smart phones/devices process **real-time data to enhance our lives, communities and to better predict our future needs**. Thus, a smart library is constantly assessing and ranking the needs of the local community so that relevant programs can be created, funded, evaluated, enhanced and sustained.
- “Smart libraries play a major role in the creation of **networked and more sustainable communities**.”

Weston, Chip. “Smart Libraries: Community Development Through Innovation and Partnerships,” *The Aspen Institute Dialogue on Public Libraries*. September 12, 2016.

Zot Smarter @ UCI Libraries

The Forest J. Grunigen, M.D. Library, named after a UCI School of Medicine alumnus, is the largest medical library in Orange County.

It's here that UCI Health and the world are linked through comprehensive inter-library loan services. Its librarians and staff specialize in medical research, and provide personalized support to our region's health professionals, researchers and medical students.

Explore the **Grunigen Medical Library**, and see for yourself what cutting-edge medical research and resource look like!

- Ask about our smartboard classroom
- Multimedia workstations
- Mobile device charging stations
- Laptop and iPad loan services

Or visit online (grunigen.lib.uci.edu) for handy information guides on the latest in medical topics and tools.

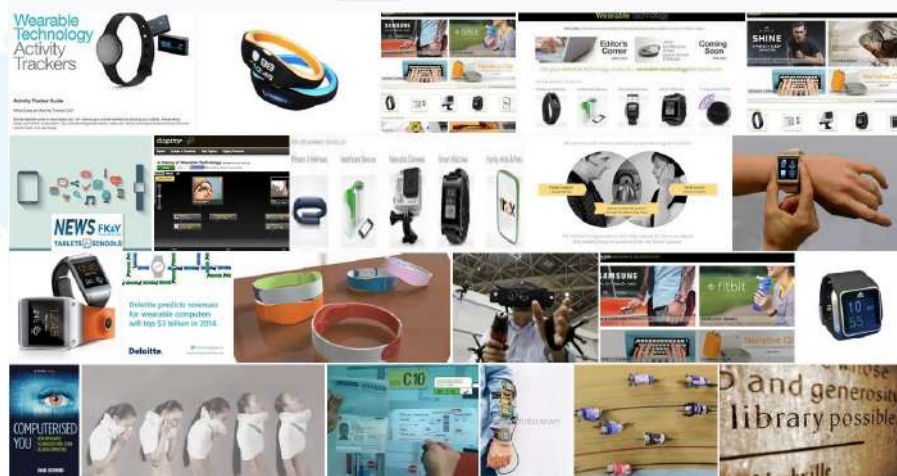

Located in Orange, CA at the UC Irvine Medical Center

SCALE-UP

Student-Centered Active Learning Environment with Upside-down Pedagogies

Personalized learning

- technology that helps professors differentiate instruction and think differently about the delivery of instructional content.
 - Libraries enable them to efficiently and effectively search, discover, and select the best sources to help students succeed in their courses
- Learning analytics enable content recommendations based on student outcomes, learning history or faculty preference
- Content can then be pushed to individuals or the appropriate course site via the learning management system (LMS)

A **knowmad** is what I term a nomadic knowledge and innovation worker – that is, a creative, imaginative, and innovative person who can work with almost anybody, anytime, and anywhere. (adapted from Moravec, John. *Knowmad Society* (2013))

Source: <https://educationfutures.com/knowmad/what/> ; Image: <https://educationfutures.com/john/category/knowmad-society/>

Definitions

“The internet of things (IoT) is a computing concept that describes the idea of **everyday physical objects** being connected to the internet and being **able to identify themselves to other devices**.”

<https://www.techopedia.com/definition/28247/internet-of-things-iot>

Ambient Intelligence

No longer does the object relate just to its user, but it is now connected to surrounding objects and database data. When many objects act in unison, they are known as having **"ambient intelligence."**

Growing fast

According to analysis from Intel:

- 2 billion in 2006
- 15 billion in 2015
- 200 billion in 2020

There are already more connected things than people in the world!

Smart Library Example

What is a smart library?

A library fitted with 'Smart Library' technology is able to be open to library users without being staffed. The technology enables remote control of library buildings, including automatic doors, lighting, self-service kiosks and public computers. This allows us to significantly extend library opening hours, so more people can use the library at times that is convenient for them.

Kids are growing up with it

www.library.illinois.edu/mortenson

Kids as both peers & teachers

In this study researchers found that sometimes kids engaged with voice assistants as peers and other times as teachers. Kids believed that they could both learn from their digital assistants and also teach them. The study concluded that perhaps in the future, we could design voice computing so that kids are able to tinker with and program the agents, "and thus expand their perception of their own intelligence and different ways to develop it."

Use Alexa in the library

Alexa provides a new resource tool to the
Missouri Valley Public Library

By Jessica Christians, Reporter, reporter@missourivalleytimes.com Sep 14, 2018

MEET THE NEWEST
ADDITION TO THE
MODALE PUBLIC LIBRARY.

ALEXA!!!

Amazon Echo is a hands-free speaker you control with your voice. Echo connects to the Alexa Voice Service to play music, provide information, news, sports scores, weather, and more—instantly. All you have to do is ask.

Echo has seven microphones and beam forming technology so it can hear you from across the room—even while music is playing. Echo is also an expertly tuned speaker that can fill any room with 360° immersive sound. When you want to use Echo, just say the wake word "Alexa" and Echo responds instantly.

NEW TECHNOLOGY, NEW VISION

THE MODALE PUBLIC LIBRARY...

WE ARE NOT JUST

BOOKS!

The Daring Librarian (blog)

List of things the Alexa in the Echo can do in your Library:

- Get the Title or Author of a book (She knows Harry Potter & Hitch-hiker, may not know more obscure YA titles)
- Answer basic factual questions
- Spell and define words
- NPR News Flash (Customizable)
- Tells the time
- Weather forecast for your location
- Play Prime or purchased music & playlists
- Listen to audiobooks from Audible or Kindle Unlimited on your Amazon Echo
- **Teaches kids how to phrase a question - this has been fascinating!**

Skills - library events

Voice assistants

Find out what's happening at the Library
with just your voice

Revised: June 15, 2018

If you have an Amazon Echo or Google Home smart speaker, finding out what's happening at Worthington Libraries is just an ask away.

Alexa Skill

An Alexa Skill, developed specifically for Worthington Libraries, is now available in the Skill Store. There are several ways to enable the skill on your device:

1. Just say, "Alexa, enable Worthington Libraries skill."
2. Go to Amazon Alexa app on your mobile device, search for the skill "Worthington Libraries," click "enable skill."
3. Go to alexa.amazon.com on your computer, search for the skill "Worthington Libraries," click "enable skill."
4. Go to Amazon.com, search for "Worthington Libraries," select the skill, click "enable skill."

Once enabled, you can search for library events at any of our locations. Sample questions:

- What's happening today at Worthington Park Library?
- Are there any events for teens this weekend at Northwest Library?
- What's going on tomorrow at Old Worthington Library?

For more information about events, say "get details." You can navigate through event details by saying "next," "previous" or "repeat."

www.library.illinois.edu/mortenson

Skills - library events

Google Action

A Google Action, developed specifically for Worthington Libraries, is now available in the Google Actions Directory. You can talk to Google Assistant on your Google Home smart speaker, or talk or type in the Google Assistant app on your device. To use the Action:

- Just say, "Hey Google, talk to Worthington Libraries."

You can search for library events at any of our locations. Sample questions:

- What's happening today?
- What's going on this week at Old Worthington Library?
- Are there any events for toddlers this weekend?

You can navigate through event details by saying "next," "previous" or "repeat."

“Question device petting zoo”

Alexa, Siri, Cortana, Google Home, AR, AI, Machine Learning and the Special Librarian

5 minute read

Posted by [Stephen Abram](#) on 3/28/2018

Buy a device or three. It should cost under \$200, and you can expense it as a program for the library to offer. How about a **Question Device Petting Zoo:** “Getting to Know your Home Assistant as Your Home Assistant Knows You”. Whoa—then host a discussion on the implications for your enterprise as business information and behaviours are uploaded to the cloud—and potentially tied to your employee identity. Now you see the business case!

Demco® DiscoverLocal Now Works With Amazon Alexa™ Easier Than Typing, Tapping or Calling ... Just Ask Alexa!

People use online searches, smartphones and voice controlled devices to discover things. Because Demco® DiscoverLocal makes library information visible in search engines, it also works with Amazon's Alexa ... all they have to do is ask about your library!

What can Alexa & Demco® DiscoverLocal do?

- Find information about library hours and services
- Place holds and renew items already checked out
- Discover events and register to attend
- Reserve study or meeting rooms

A Skill for Hoopla

LOS ANGELES

LOS ANGELES PUBLIC LIBRARY

Alexa, Meet hoopla!

Requests must start with Alexa, *ask hoopla*... If not, Alexa will not know to get the information from *hoopla*, and will instead return results from Amazon.

Allowed Commands

Alexa, ask hoopla...

- ...how many items I can borrow.
- ...how many items I currently have borrowed.
- ...for my library's phone number.
- ...to list all titles I have borrowed.
- ...to list my music
- ...to list the music I currently have borrowed.
- ...to play my music.
- ...to list my audiobooks.
- ...to list the audiobooks I currently have borrowed.
- ...what is hoopla?

When listening to music, you can use *Alexa next* or *Alexa previous* to go to the next/previous tracks.

www.library.illinois.edu/mortenson

A Skill for Hoopla

hoopla

When will hoopla for Alexa be available publicly?

It is live now. Search for "hoopla digital" in the Amazon Skills marketplace.

What formats are supported on Alexa?

Currently, Alexa supports hoopla audiobooks and music.

Alexa keeps playing titles from Amazon and not hoopla. What's going wrong?

Be sure to form your commands as "Alexa, ask hoopla..." Otherwise, it will try to find the title in your Amazon library.

Does my library have to enable Alexa support?

No, your library does not have to do anything to enable Alexa support.

Amazon Echo & Google Home

YouTube

Alexa, ask my library for an overview of water shortages.

*I found an overview of **water scarcity**. Water scarcity is the lack of freshwater supplies for all users, including the environment, such that their needs are not fully met. Water stress is low availability of needed freshwater. **Do you want me to keep reading?***

Alexa, ask my library for information about political gerrymandering.

*There are **440 hits at your library** for that topic including an Academic Journal titled Clearing the Political Thicket: Why Political Gerrymandering for Partisan Advantage is Unconstitutional. **Would you like me to email you a link to this list of results?***

Alexa, ask my library for books like the Maze Runner.

*You should read Incarceron by Catherine Fisher. Although Incarceron is fantasy and Maze Runner is science fiction both fast-paced stories feature characters thrown together into constantly shifting, bleak worlds; a labyrinth in Maze Runner; a prison that is a living organism in Incarceron. Suspenseful and compelling reads. **I have 11 more recommendations.** Would you like to hear them?*

Introducing the LibraryThing Alexa Skill

Introducing the LibraryThing Skill for the Amazon Echo, Dot and other Alexa devices. Take a look:

The LibraryThing Alexa Skill is a weird but easy way to add books to your LibraryThing account. Just stand in the foyer, with a bag of new books, or on top of a rickety bookshelf ladder in the attic, and say:

Alexa, tell LibraryThing to add [Book Title] by [author]

Amazon donated 1,600 Echo Dot smart speakers to ASU's new high-tech dorm for engineers

Matt Weinberger Aug. 17, 2017, 11:12 AM

But wait, there's more: Every single one of the 1,600 freshmen moving into Tooker House is getting an [Echo Dot smart speaker](#), retail price \$50, thanks to a one-time donation from Amazon. Notably, accepting the device isn't mandatory, and some students may elect not to take advantage of the offer.

One of 1,600 customized Amazon Echo Dot smart speakers, donated by Amazon to Arizona State University. Arizona State University

The devices also come equipped with an ASU "skill," built in collaboration with Amazon, which lets students quickly get information on the academic calendar and events on campus just by asking the Echo's Alexa digital assistant. It also sports the normal Alexa features, including setting alarms and playing music.

Northeastern University Expands Amazon Alexa Access to Public Spaces

BRET KINSELLA on September 4, 2018 at 11:18 am

Husky Helper Campus Locations

"The Echo Dots are mounted on walls in residence halls, classroom and administrative buildings, the Marino Center, and the Curry Student Center. The devices are roughly the size of drink coasters, and each is marked with an oversized red Northeastern N... The devices serve as a one-stop-shop for students who need information about information technology, housing, student affairs, financial aid, dining, athletics, the library, career services, student records, and Northeastern police."
