Head of Department of Urology

Urology

Preface

“Motivation is what gets you started. Habit is what keeps you going” Jim Rohn

Here we are! Dawn of a new opportunity and more possibilities. We have another open platform to be privileged on a path of healing lives. We embrace it again with open hearts!

Service delivery

The year 2017 has proven to be very fruitful. It has passed with lots of applause. Urology department has had many achieved cases. The A- Team has worked with enthusiasm and eagerness. We have had **1234** male patient's operated by the end of October 2017. Despite these patients booking was 3 months ahead for the outpatients at level 6!

Academic

Training of postgraduate students has been refined to be stimulating efficient and user friendly. This is due to the organized year programme that is posted on and fragmented on a weekly basis.

E-journals, ward rounds, presentations, meet –the- examiner programmes and interdepartmental discussions are included to cater for the needs and facilitate service delivery. The emphasis is on bedside teaching.

There was such dedication and excellent coordination and team effort in convening and hosting CMSA examinations in second semester.

We congratulate Dr Blake and Dr Lourens who recently passed final Exams

Dr Mtsetweni passed Intermediate Exams

Dr Thosago and Hector who passed part 1

For the undergraduate students that passed within Urology department. Best of luck in your career! Good luck to those students that have passed with distinctions.

In addition, hope the rotation in Urology has sparked a lifetime interesting some.

We have hosted visiting experts like Prof Kullkarni and Puntambakerin workshops and had visiting students from other centers as well.

Administration

The workshops held this year were of high standard

Urethroplasty

Laparoscopy

Brachytherapy

Botox

Research and Scientific work

Thanks to the Dr Aneck-Hahn and Dr Sean Patrick for co-ordinating research and for the output. For the facilitating research and assisting candidates in this regard relentlessly. It been a great experience to be involved in presentation of research work in Faculty day and ESAU locally and international bodies like PAUSA, SIU.

“If you want to run fast, run alone: if you want to run far, run together”. African Proverb.

Let us be dedicated to continue to align ourselves with our Mission: *To practice urology with excellence.*

The year programme has more details.

Wishes for the best year ahead!

Dr Evelyn Mmapula Moshokoa
