

# Are you safe online?

Do you use the internet to **chat** with friends?

Do you use the internet to **share photos** of yourself?

Do you use the internet to do your **homework**?

Do you use the internet to share **funny photos** and **videos**?

Are parents aware of what their kids get up to online? or should we say are kids honest to their parents about what they do online?

# Are you safe online?

There are often hidden bad guys that would spoil your online experience.

This is someone who might access your account and personal information and misuse it.

The hacker

This is someone who can gain access to your personal information by tricking you.

The phisher

This is someone that can really hurt you.

The troublemaker

This is someone who will share too much information about you and your family at the same time compromise your security.

The oversharer

# Are you safe online?

**How do you protect yourself from such people?**

**You need create a strong password. It must contain 8-12 characters, mix of numbers and letters, uppercase and lowercase characters and special characters.**

**The hacker**

**It is not a good idea to click on links that are not legit.**

**The phisher**

**Block mean and inappropriate people.**

**The troublemaker**

**Check your settings regularly to ensure that you share your galleries with appropriate people.**

**The oversharer**
