

Ubuhlungu bungaba nzima ukukhulumu ngabo ngoba awukwazi ukububona, kepha uma unabo bungathinta impilo yakho kabi, ngakhoke kubalulekile utshele u dokotela wakho ngabo.

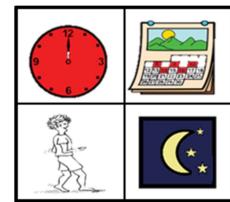

Kubuhlungu kuphi?

Ubuhlungu buzwakala kanjani?

Buzanini ubuhlungu?

Buza kanjani ubuhlungu?

Buhlala isikhathi esingakanani ubuhlungu?

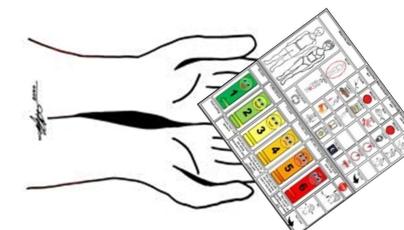

Bubi kangakanani ubuhlungu?

Ngicela ungisize

Ngicela ibhodi lezokuxhumana

Lolu uhlelo olubonakalayo. Uhlelo olubukwayo lungasiza abantu baqonde ukuthi inqubo elandelanayo noma inqubo isebenza kanjani. Kusiza kakhulu abantu abakhubazekile ngokwenqondonoma i-Autism, ukubasiza baqonde okufanele bakwenze ngokulandelayo noma okuzolandela ngokulandelayo. Lapho umuntu akwazi ukubona ukuthi kuzokwenzekani ngokulandelayo kunganciphisa ukukhathazeka kwakhe futhi kwandise ukuzimela kwakhe. Ukuze usebenzise ishejuli yokubuka, ngaphambi kokuba umsebenzi uhlale nomuntu bese umchazela inqubo ngesinyathelo, ukhombe izithombe lapho uhamba. Ngesikhathi senqubo ngaphambi kwesinyathelo ngasinye bonisa umuntu isithombe futhi lapho leso sinyathelo sesiphelile babonise ukuthi uqhubekela esinyathelweni esilandelayo
