Mini-Dissertation Titles - Masters in Project Management (2006-2010)

					4	
	Author	Supervisor	Degree	Title		
	Britz J	Buys AJ	MPM	The Link Between Project Management and Strategic Management: Realising Strategy Success	UNIVERSITEIT VAN PRETORIA	Graduate School of
	Chisholm VC	Kruger CJ	MPM	Expanding the role of the chief information officer (CIO) in the power utility parastatal Eskom – Distribution: South African Perspective	TUNIVERSITY OF PRETORIA TUNIBESITHI YA PRETORIA	Technology Management
	Geekie AJ	Steyn HdeV	MPM	Buffer sizing for the critical chain project management method		
	Grobler HF	Visser JK	MPM	A Model to Assess the Risk Profile of Land Reform Projects		
	Grobler PJ	Steyn HdeV	MPM	Project Management Maturity Models in the Mining Industry		
	Hadebe NM	Brent AC	MPM	Development of an improved impact assessment methodology for large water resource infrastructure projects in South Africa		
2006	Harber DS	Visser JK	MPM	Construction Projacts in Africa: A Risk Quantification Matrix for use by Local Industries		
2006	Kago JC	Viljoen PJ	MPM	Theory of Constraints project Time Management in multiple, Concurrent projects: Investigation of Assumptions Regarding Human Behaviour During Project Planning		
2006	Lewis M	Lalk, J	MPM	A framework to Measure the Success of the Quality Management System in a Steel works		
2006	Lourens HC	Brent AC	MPM	The people's housing process in the Western-CapeProvince: Towards Sustianable Program Life Cycle Management: - A hierarchical Classification of Negatively Influencing Factors		
2006	Moos OM	Pretorius MV	MPM	Measures for successful Technology Forward Integration: An example of Semi-Solid metal casting in South Africa		
2006	Ndlela DA	Viljoen PJ	MPM	Project Management Process in Eskom distribution group north East Area of Northern Region		
2006	Qwabe VA	Steyn HdeV	MPM	Knowledge management practicse within the South African construction industry		
2006	Schoeman CJ	Amadi-Echer	MPM	The relationship between project quality and functional specifications as used by system integrators		
2006	Spoelstra H	Steyn HdeV	MPM	The theory of constraints method of resource allocation for multiple projects: An Investigative Study on the impact that different Heuristics have on Project duration		
2006	van der Schyff JH	Horak E	MPM	The Effect of Applying BEE Principles in Procurement Management of Large Civil Engineering (Roads) projects		
2006	van Eeden GJ	Pretorius MV	MPM	Using the technology space map for resource allocation for development projects in matrix-type organisations		
2007	Banze HMJ	Bekker MC	MPM	Improving sustainability of hydro-meteorological telemetric networks in Mozambique		
2007	Botha RP	Steyn HdeV	MPM	Decision making and management of pre-investment in a program of projects		
2007	Buys BF	Köster MJF	MPM	Small, micro and medium road contractor development in Namibia: An adjusted method to developing SMME's in the Namibian road sector		
2007	Chonco MW	Bekker MC	MPM	Defining the project management roles of mining project managers and consulting project managers under EPCM contracts		
2007	Coetzee DJ	Steyn HdeV	MPM	An assessment model for project management competency in the South African automotive components supplier industry		
2007	Du Toit A	Benade SJ	MPM	The requirements engineering process in the software product life-cycle		
2007	Fakir N	le Roux B	MPM	The implementation of theory of construction in the South African automotive industry		
2007	Hasheela RT	Visser JK	MPM	Which maintenance activities should be outsourced by local authorities?		
2007	Holtzhausen AH	Kachienga M	IMPM	Mining business development in Angola: The case study of diamond mining		
2007	Jó PA	Barry ML	MPM	The most important success factors for implementation of government projects in Mozambique		
2007	Joubert JP	Visser JK	MPM	Construction risk assessment model for the insurance industry in South Africa		
2007	Labuschagne JT	Steyn HdeV	MPM	Development of a project management methodology for the consulting engineering industry		
2007	Lephoi LG	Van Waverei	nMPM	Evaluating the quality management system applied in Eskom distribution – Engineering work management process: A case study		
2007	Matsimela LS	Bekker MC	MPM	Factors affecting the successful delivery of RDP housing projects in the Department of Housing		
2007	Mittermaier HK	Steyn HdeV	MPM	Project management maturity: An assessment of maturity for developing pilot plants		
2007	Mogoba LW	Bekker MC	MPM	Benefits realisation from IT projects: The case of a major South African financial institution		
2007	Mokotong HM	Pretorius P	MPM	An investigation into the high turnover of artisans in a FMCG manufacturing company		
2007	Muianga A	Brent AC	MPM	Demand responsive approach: Eligibility criteria for selecting communities of rural water supply investment in Mozambique		
2007	Ngiela HO	Bekker MC	MPM	The influence of management process on achieving power project objectives: A case study of Kengen projects		
2007	Saranga Loforte SD	Brent AC	MPM	Environmental criteria for selection of rural water supply projects in Mozambique		
	Sebone MF	Barry ML	MPM	Toward determining critical success factors for SME electrical contractors in the construction industry in South Africa		
2007	Singh A	Pretorius P	MPM	The applicability of TOC methodologies in the Eskom power stations return to service projects		
2007	Smith A	Bekker MC	MPM	An evaluation of the adequacy of the most commonly used pro forma contract within the South African mining construction industry		
2007	Tlhomelang K	Barry ML	MPM	Investigation into the benefits of the implementation of an EPM system and tools in medium and large organisations in Botswana		
2007	Uys L	Barry ML	MPM	The future of successful project management in the South African context: Current trends		
2007	van Aswegen GD	Köster MJF	MPM	From feasibility to reality: A predicament for the mining industry in South Africa		
	van der Scholtz L	Pretorius MV	MPM	Time to market of new telecommunication services: Case study of Telkom SA		
	Chihuri S	Pretorius L	MPM	Managing risk in a South African project environment		
	Coetzee JH	Verhaege A	MPM	An assessment of people skills and the training of people skills in project management		
2008	de Klerk TE	Heunis C	MPM	The impact of leadership style on team dynamics of project success: An investigation of the RDL Systems Group		
2008	Fick H	Amadi-Echer	MPM	Classifying projects by effort		
2008	Gericke E	Van Waverei	n MPM	Intangibles make a difference in project management		
2008	Gonteb RA	Bekker MC	MPM	A critical review of project management systems for application in a civil engineering company		
2008	Gous D	Brent AC	MPM	Development of a management system framework for environmental remediation		
2008		Köster MJF	MPM	Toll Roads an appropriate method of road user charging for Namibia?		
2008	Hussain F	Van Waverei	n MPM	The implementation of total quality management of the suppliers of components to the original equipment manufacturers (OEMs) in the South African motor industry		
	Kriel HJ	Steyn HdeV	MPM	Matrix Management: The de facto approach to managing multiple projects		
	Lourens HC		MPM	The people's housing process in the Western Cape Province: Towards sustainable program life cycle management: A Hierarchical classification of a negatively influencing factors		
	Makubela L	Brent AC	MPM	A water resource compliance monitoring and enforcement framework for biofuels feedstock production		
	Maluleke GT	Pretorius L	MPM	A business case framework for post mine closure		
	Markor CY	Bekker G	MPM	The impact of project management on the performance and standard of education in the central region of the North West province		
	i	-				

2008 Mathibe DO	Van Waverer	NADNA	An exploratory study of project management methodologies for smaller projects in the mining environment
2008 Melane M	Van Waverer		An exploratory study or project management methodologies for strangement projects in the mining environment. The South African solar water heating (SWH) Industry's project management practices.
2008 Mkhize N	Mulder J	MPM	Project management maturity within the Department of Agriculture and Environmental Affairs: developing a tool to advance the project management maturity to the next possible highest level
2008 Nakene M	Verhaege A	MPM	roject management maturity to the next possible ingress even
2008 Ntshosho KM	Köster MJF	MPM	A team per formance moder using team man modes for government in projects Project management conductivities The case of a South African Armaments company
2008 Nyandoro JI	Verhaege A	MPM	r roject management competence. The case of a South minimal minimal management of South and Sout
2008 Ogano NO	Pretorius L	MPM	Assessment of sustainable development, principles in the imming and immerial sector in south and in the electricity industry in Kenya Critical Factor affecting quality performance in construction projects: The case of construction projects in the electricity industry in Kenya
2008 Palamootil MM	Steyn HdeV	MPM	A stage gate process for business integration projects
2008 Potgieter AJ	Bekker G	MPM	An investigation into the reasons for good contractor performance on large projects at ArcelorMittal Newcaste
2008 Price RPB	Steyn HdeV	MPM	Practical measurement criteria for progress reporting of mineral processing plant construction projects
2008 Raath J	Bekker MC	MPM	Profile of the project manager in the mining industry
2008 Raghunandan A	Walwyn D	MPM	A case study of the make or buy decisions taken by Tongaat Hullett Sugar in the white sugar mill and fructose sugar mill projects
2008 van der Merwe DCS		MPM	Can the application of system engineering methodologies benefit projects in the process industries in South Africa?
2009 Baloyi L	Bekker MC	MPM	Factors influencing construction delays and cost overruns: The implementation of 2010 World Cup stadia in South Africa
2009 Bisschoff DF	Bekker MC	MPM	An investigation into project management methodology in the South African telecommunications industry
2009 Botha L	Kachienga M	MPM	The comparative economics of diabetic patient management
2009 Coetsee HB	Heunis C	MPM	An integrated value proposition model for 21st century organizations
2009 du Toit R	Barry ML	MPM	An investigation of the relationship between project success and project manager experience and qualifications
2009 Engelbrecht HL	Walwyn D	MPM	An investigation into the accuracy and validity of intellectual property valuation methods used by South African ICT sector companies in establishing fair market value
2009 Jali SM	Benade SJ	MPM	Business process reegineering in the construction enterprise
2009 Kruger J	Pretorius L	MPM	Risk management in the consulting industry
2009 Kweka AL	Bekker MC	MPM	Merging municipals projects implementation and poverty diminution through labour intensive construction methods
2009 Legodi R	Barry ML	MPM	Effective project risk management for data warehouse development
2009 Mama MN	Kruger CJ	MPM	Guidelines for the application of strategic management principles regarding identity management implementation: a South African telecommunications case study
2009 Mathimba TAD	Benade SJ	MPM	Is a public private partnership a viable scheme for power generation projects in South Africa?
2009 Mcewan NJ	Steyn HdeV	MPM	Success factors for electric furnace reline projects
2009 Meyers RA	Weeks RV	MPM	A service culture impact analysis on project management at power stations in Eskom
2009 Mhlotshana B	Weeks RV	MPM	An analytical study of project management within a large South African Petrochemical industry institution
2009 Moje M	Buys AJ	MPM	A study of the factors influencing innovation capability at Jwaneng mine
2009 Mothomogolo J	Kachienga M	MPM	Development of innovative funding mechanisms for mining start-ups
2000 14 1 (1)			
2009 Mujati L	Kachienga M	MPM	The development of a critical success factors model for project implementation in a consulting engineering firm
2009 Mujati L 2009 Müller SP	Kachienga M Kruger LLSJ	MPM MPM	The development of a critical success factors model for project implementation in a consulting engineering firm An investigation into the effectiveness of four qualitative risk modules
2009 Müller SP	Kruger LLSJ	MPM	An investigation into the effectiveness of four qualitative risk modules
2009 Müller SP 2009 Ncube D	Kruger LLSJ Benade SJ	MPM MPM	An investigation into the effectiveness of four qualitative risk modules Application of business process management (BPM) techniques in IT projects: A case study of the banking industry in South Africa
2009 Müller SP 2009 Ncube D 2009 Noruwana SER	Kruger LLSJ Benade SJ Lalk J	MPM MPM MPM	An investigation into the effectiveness of four qualitative risk modules Application of business process management (BPM) techniques in IT projects: A case study of the banking industry in South Africa Project procurement management: a case study on contracting strategies applied in various contracting models, on business development & implementation model, using new engineering contract.
2009 Müller SP 2009 Ncube D 2009 Noruwana SER 2009 Oosthuizen HP	Kruger LLSJ Benade SJ Lalk J Bekker MC	MPM MPM MPM MPM	An investigation into the effectiveness of four qualitative risk modules Application of business process management (BPM) techniques in IT projects: A case study of the banking industry in South Africa Project procurement management: a case study on contracting strategies applied in various contracting models, on business development & implementation model, using new engineering contract. An investigation into the awareness of key role players regarding their required level of involvement across the project life-cycle at a major mining company
2009 Müller SP 2009 Ncube D 2009 Noruwana SER 2009 Oosthuizen HP 2009 Perumal K	Kruger LLSJ Benade SJ Lalk J Bekker MC Weeks RV	MPM MPM MPM MPM MPM	An investigation into the effectiveness of four qualitative risk modules Application of business process management (BPM) techniques in IT projects: A case study of the banking industry in South Africa Project procurement management: a case study on contracting strategies applied in various contracting models, on business development & implementation model, using new engineering contract. An investigation into the awareness of key role players regarding their required level of involvement across the project life-cycle at a major mining company The impact of organisational culture on multi-cultural project teams in a large enterprise within the energy sector of the South African economy
2009 Müller SP 2009 Ncube D 2009 Noruwana SER 2009 Oosthuizen HP 2009 Perumal K 2009 Pretorius W	Kruger LLSJ Benade SJ Lalk J Bekker MC Weeks RV van Waveren	MPM MPM MPM MPM MPM MPM	An investigation into the effectiveness of four qualitative risk modules Application of business process management (BPM) techniques in IT projects: A case study of the banking industry in South Africa Project procurement management: a case study on contracting strategies applied in various contracting models, on business development & implementation model, using new engineering contract. An investigation into the awareness of key role players regarding their required level of involvement across the project life-cycle at a major mining company The impact of organisational culture on multi-cultural project teams in a large enterprise within the energy sector of the South African economy The effectiveness of available tools for project risk management in De Beers
2009 Müller SP 2009 Ncube D 2009 Noruwana SER 2009 Oosthuizen HP 2009 Perumal K 2009 Pretorius W 2009 Sarefo MR	Kruger LLSJ Benade SJ Lalk J Bekker MC Weeks RV van Waveren Barry ML	MPM MPM MPM MPM MPM MPM MPM	An investigation into the effectiveness of four qualitative risk modules Application of business process management (BPM) techniques in IT projects: A case study of the banking industry in South Africa Project procurement management: a case study on contracting strategies applied in various contracting models, on business development & implementation model, using new engineering contract. An investigation into the awareness of key role players regarding their required level of involvement across the project life-cycle at a major mining company The impact of organisational culture on multi-cultural project teams in a large enterprise within the energy sector of the South African economy The effectiveness of available tools for project risk management in De Beers The link between strategic management and project management: The case of strategy development and implementation and project management in Botswana
2009 Müller SP 2009 Ncube D 2009 Noruwana SER 2009 Oosthuizen HP 2009 Perumal K 2009 Pretorius W 2009 Sarefo MR 2009 Simelane M 2009 Solly ST 2009 Strydom I	Kruger LLSJ Benade SJ Lalk J Bekker MC Weeks RV van Waverer Barry ML Steyn HdeV Weeks RV van Waverer	MPM	An investigation into the effectiveness of four qualitative risk modules Application of business process management (BPM) techniques in IT projects: A case study of the banking industry in South Africa Project procurement management: a case study on contracting strategies applied in various contracting models, on business development & implementation model, using new engineering contract. An investigation into the awareness of key role players regarding their required level of involvement across the project life-cycle at a major mining company The impact of organisational culture on multi-cultural project teams in a large enterprise within the energy sector of the South African economy The effectiveness of available tools for project risk management in De Beers The link between strategic management and project management: The case of strategy development and implementation and project management in Botswana Casual factors for project cost overruns in the petrochemicals industry in South Africa An investigation on how professional engineering services offered to wireless operators can be improved The investigation of team efficiency factors that are influenced by the effective implementation of an activity alignment process
2009 Müller SP 2009 Ncube D 2009 Noruwana SER 2009 Oosthuizen HP 2009 Perumal K 2009 Pretorius W 2009 Sarefo MR 2009 Simelane M 2009 Solly ST 2009 Strydom I 2009 Thusi LM	Kruger LLSJ Benade SJ Lalk J Bekker MC Weeks RV van Waverer Barry ML Steyn HdeV Weeks RV van Waverer de Waal J	MPM	An investigation into the effectiveness of four qualitative risk modules Application of business process management (BPM) techniques in IT projects: A case study of the banking industry in South Africa Project procurement management: a case study on contracting strategies applied in various contracting models, on business development & implementation model, using new engineering contract. An investigation into the awareness of key role players regarding their required level of involvement across the project life-cycle at a major mining company The impact of organisational culture on multi-cultural project teams in a large enterprise within the energy sector of the South African economy The effectiveness of available tools for project risk management in De Beers The link between strategic management and project management: The case of strategy development and implementation and project management in Botswana Casual factors for project cost overruns in the petrochemicals industry in South Africa An investigation on how professional engineering services offered to wireless operators can be improved The investigation of team efficiency factors that are influenced by the effective implementation of an activity alignment process Life cycle costing on capital projects in a facilities management environment
2009 Müller SP 2009 Ncube D 2009 Noruwana SER 2009 Oosthuizen HP 2009 Perumal K 2009 Pretorius W 2009 Sarefo MR 2009 Simelane M 2009 Solly ST 2009 Strydom I 2009 Thusi LM 2009 Treadwell A	Kruger LLSJ Benade SJ Lalk J Bekker MC Weeks RV van Waverer Barry ML Steyn HdeV Weeks RV van Waverer de Waal J Bekker MC	MPM	An investigation into the effectiveness of four qualitative risk modules Application of business process management (BPM) techniques in IT projects: A case study of the banking industry in South Africa Project procurement management: a case study on contracting strategies applied in various contracting models, on business development & implementation model, using new engineering contract.
