

13th South African System Dynamics Conference (Virtual and FREE!)

“Systems in Action: Driving Impact Through Systems Modelling” 6-7th November 2025

The South Africa System Dynamics Chapter (SASDC) is hosting our virtual 13th annual South African System Dynamics Conference to create a networking platform where researchers can present novel work which contributes to **systems thinking, system dynamics (theory, methodology or empirics), systems engineering and operations research**. Extended abstracts should contribute to the conference theme of “**Systems in Action: Driving Impact Through Systems Modelling**”. Topics may tackle the following subjects: **Health Dynamics/ Sustainability / Education/ Sociology and Psychology/ Economics/ Natural Resource Management/ Technology/ Policy and Governance/ Transport/ Hydrogen Economy/ Circular Economy**.

DATE	ITEM
12-March	Call for submissions (full papers/ short papers/ work-in-progress/ case studies)
15-Sep	Full paper/ Short paper / work-in-progress*/ case study* submission deadline
28-Sep	Notice of submission decision to authors
06-Oct	Author registration deadline
31-Oct	Attendee registration closes
2-Nov	Final program & conference details
6 th – 7 th Nov	13th South African System Dynamics Conference

Prepare to be inspired by an impressive array of guest speakers from around the globe!
