

Short Courses in Railway Engineering

Access a wide selection of Railway Engineering short courses from leading experts at the University of Pretoria and stay on track with the latest industry developments to get a head start with integral knowledge and skills in a highly competitive industry.

 Railway Engineering short courses are registered with ECSA for CPD.

Railway Engineering

Course Title	Days	Date	Course fee (VAT incl.)
May 2024			
Introduction to Railway Projects and Processes	3	14 - 16 May 2024	R13 530.90
Technical writing and presentation skills	2	23 - 24 May 2024	R9 752.00
June 2024			
Introduction to Multi-Disciplinary concepts in Railway Engineering	5	03 - 07 Jun 2024	R18 400.00
Rolling Stock Technology	5	24 - 28 Jun 2024	R19 199.95
July 2024			
Track Geo-technology	5	08 - 12 Jul 2024	R21 332.50
Railway Infrastructure Maintenance Management	5	22 - 26 Jul 2024	R19 199.95
August 2024			
Management of Continuously Welded Rails	3	06 - 08 Aug 2024	R13 530.90
Railway Technology for Managers	3	20 - 22 Aug 2024	R9 752.00
September 2024			
Railway Safety Audits, Investigation and Reporting	3	03 - 05 Sep 2024	R9 752.00
Train Movement Control Systems	4	16 - 19 Sep 2024	R17 675.50
October 2024			
Wheel-Rail Interaction	4	07 - 10 Oct 2024	R17 675.50
Railway Safety Investigation Course	4	21 - 24 Oct 2024	R15 907.95
November 2024			
Introduction to Multi- Disciplinary concepts in Railway Engineering	5	04 - 08 Nov 2024	R18 400.00
Law, Risk, Economics and the Environment	5	18 - 22 Nov 2024	R15 907.95
February 2025			
Transnet Freight Rail Operations	4	10 - 13 Feb 2025	R19 199.95

Shifting knowledge to insight
