

Forensic Anthropology Research Centre, Pretoria, South Africa

# INTERNSHIP OPPORTUNITY

## Forensic Anthropology Case Analysis

Get access to forensic cold cases and hands on experience in writing forensic case reports. Each internship includes:

- Lecture: Introduction to Forensic Anthropology and South African human variation
- Access to various cases from a South African context
- Analysis of a forensic case, including the biological profile (age, sex, population affinity and stature), taphonomy, bone trauma and/or bone pathology
- Peer review and feedback from staff (D-ABFA certified and others)
- One completed case report (minimum) to take home
- Report can be submitted to FASE and ABFA for review for examination purposes
- FARC manual – South African standards are provided

The programme lasts one to two weeks with periods from **26 June to 07 July** in 2023 and again from **10 to 21 July** in 2023.

Case reports can be submitted to FASE and AFBA for review for examination purposes.
