

STUDENT GAMES CONTENDERS

THE University of Pretoria has several medal contenders in the South African World Student Games team that will compete in Italy next month.

During the previous Student Games, Tajana Schoenmaker won a silver medal in the women's 200m breaststroke.

During last year's Gold Coast Commonwealth Games she won the 100m, as well as 200m breaststroke events, setting Africa and national records. Schoenmaker season's best time of 2:24.11 ranks her 20th in the world at the moment. Her time of 1:06.83 in the 100m breaststroke currently ranks her 14th in the world. Danelle Wentzel, who is competing at the World Archery Championships in the Netherlands, made local sports history in May when she won a gold medal at the Hyundai Archery World Cup in Antalya. She is the first South African archer ever to win an individual event in an elite category at a World Cup.

Other medal contenders include Sokwakhana Zazini and Zeney van der Walt who won world titles at the 400m hurdles during the IAAF Youth.
