1. South Africa

South Africa is a country on the southernmost tip of the African continent, marked by several distinct ecosystems. South Africa, officially known as the Republic of South Africa, offers a great introduction to the many jewels on the African continent. Tourists here will find classic African scenery: golden savannah, great gaping gorges, and hauntingly beautiful deserts, as well as their favorite African creatures - and, as a bonus- the creature comforts.

Apart from the big-name game parks of Kruger and the Kgalagadi (Kalahari) Transfrontier Park, South Africa is home to some of the world’s most luxurious private game reserves and lodges. Wildlife lovers come here from all corners of the globe in search of the “Big Five”: lion, buffalo, leopard, rhino, and elephant, and often they find it, and so much more.

Coral reefs, shark dives, dragon-backed mountain ranges, white-water rafting, and golden beaches lapped by legendary surf breaks are some of South Africa’s many other attractions. Traveling around this vast land and touring the vibrant cities, visitors can learn about the nation’s turbulent history: in Cape Town, one of the world’s most beautiful cities; in Durban, a melting pot of cultures and cuisines, at the poignant museums and galleries in Johannesburg, Soweto, and Qunu, the birthplace of Nelson Mandela, who helped birth democracy in this astoundingly diverse nation.

Newcomers’ Guide: 2018
2. University of Pretoria

The University of Pretoria (UP) is a multi-faculty, research-intensive university, which on average, produces the highest per capita percentage of the total South African research output. Its main campus is in Pretoria. UP is conveniently situated and in close proximity to government departments and major research entities. Its nine faculties and business school offer a diverse range of degrees, diplomas and certificates, with over 1 000 postgraduate programmes.

The institution has a rich, colourful history and a bright future – a unique mix of academic tradition and progressive vision. Its vision is to be Africa’s leading research-intensive university, recognised internationally for its quality, relevance and impact. Relying on over a century of experience and well-established faculties, UP develops human capital and generates the knowledge and skills required to meet the many challenges of the world at large within the context of a developing nation.

With its identity firmly and proudly rooted in Africa, the University strives to develop the current and future potential of South Africa’s diverse population, while remaining a recognised player in the global marketplace of knowledge production. The University’s commitment to equity and diversity is reflected in its changing student and staff profiles. Equality and diversity are evident in UP’s multilingual student body and staff.

As one of South Africa’s oldest and most prestigious higher education institutions, the University of Pretoria produces sought-after graduates who are well-rounded citizens; shaped by its holistic approach to education and enabled by a wide range of campus activities and student societies, including sports, arts and culture. It strives to teach its students to “make today matter” by drawing on the experience of yesterday and using the knowledge of today to improve tomorrow. University staff and students are sensitised to the fact that every action in the present shapes the future.
UP campuses and faculties

The Hatfield Campus has more than 60 historical buildings that are spread over 24 hectares. It is one of the most picturesque campuses in South Africa and is close to a business centre with several essential services, such as banks, bookshops, pharmacies, sports facilities, clothing stores, restaurants and coffee shops. The Hatfield Campus houses the following faculties:

- Economic and Management Sciences
- Engineering, Built Environment and Information Technology
- Humanities
- Law
- Natural and Agricultural Sciences
- Theology and Religion

The Gordon Institute of Business Science (GIBS) houses academic programmes, as well as a wide range of executive courses that can be custom-designed to suit specific company needs. It is located in Sandton, Johannesburg.

The Groenkloof Campus houses the Faculty of Education.

The Hillcrest Campus houses TuksSport and the High Performance Centre (hpc).

The Mamelodi Campus houses the:

- BCom – Extended programme
- BSc – Extended programme for the Biological and Agricultural Sciences
- BSc – Extended programme for the Physical Sciences
- BSc – Extended programme for the Mathematical Sciences
- Post-school mathematics and science programmes
- A variety of community engagement programmes

The Onderstepoort Campus houses the Faculty of Veterinary Science.

The Prinshof Campus houses the Faculty of Health Sciences.

3. Academic offering

3.1 Academic programmes

The academic programmes are offered in 141 departments and 85 centres, institutes and bureaux. UP offers 204 qualifications involving more than 1,580 academic programmes. UP has 293 undergraduate and 1,287 postgraduate programmes.

The University’s Faculty of Veterinary Science on the Onderstepoort Campus is the only one of its kind in South Africa and is known for ground breaking research and clinical work.

4. Faculty highlights

FACULTY OF ECONOMIC AND MANAGEMENT SCIENCES

- The Faculty of Economic and Management Sciences is one of the largest faculties of its kind in South Africa.
- The Chartered Accountancy (CA) programme offered by the Faculty is a flagship programme with top performance nationally.
- The Faculty is a proud member of the Association to Advance Collegiate Schools of Business (AACSB), with several of its programmes enjoying national and international accreditation by industry bodies.
- The Department of Auditing is one of only seven tertiary institutions in the world to be accredited at the Centre of Excellence level in the Internal Audit Education Partnership (IAEP) programme of the Institute of Internal Auditors Incorporated.
- The Faculty boasts active agreements with institutions abroad, of which some appear in the QS World University Rankings and the Times Higher Education World University Rankings.
- The Faculty hosts several institutes, chairs and centres, two of which are the African Tax Institute (ATI) and the Albert Luthuli Centre for Responsible Leadership (ALCRL).
- The 2017 QS World Rankings by Subject placed the Faculty in the number one position in South Africa and in the top 4% globally for Accounting and Finance. The Faculty was also ranked in the top 6% worldwide for Economics and Econometrics.
- The Faculty has thirty-three National Research Foundation (NRF) rated researchers. It boasts some of the highest-rated researchers in the fields of business, economics and finance. With one A-rated, eight B-rated, nineteen C-rated and three Y-rated researchers, the faculty is the national forerunner.

FACULTY OF EDUCATION

- The QS World University Rankings places the Faculty of Education in the top 150 in the world.
- The Faculty is rated as the top education faculty in South Africa in terms of its number of National Research Foundation (NRF)-rated researchers.
- The Faculty is internationally recognised for its academic reputation, employer reputation and citations of research.
- The Faculty networks with both local and international universities, including universities in Australia, China, Europe and the USA.

FACULTY OF ENGINEERING, BUILT ENVIRONMENT AND INFORMATION TECHNOLOGY

The Faculty is organised into four schools: the School of Engineering, the School for the Built Environment, the School of Information Technology and the Graduate School of Technology Management.
SCHOOL OF ENGINEERING

- All the programmes in the School of Engineering have been accredited by the Engineering Council of South Africa.
- The School is one of the largest of its kind in the country in terms of student numbers, graduates and research contributions. It offers programmes in all the major engineering disciplines, as well as many specialisations at undergraduate and postgraduate levels.
- Through its innovative and relevant research across eight departments, it provides students with the necessary training to make a considerable contribution to engineering in South Africa and abroad.
- Its departments are Chemical Engineering, Civil Engineering, Electrical, Electronic and Computer Engineering, Industrial and Systems Engineering, Materials Science and Metallurgical Engineering, Mechanical and Aeronautical Engineering, and Mining Engineering.
- The School has close ties with industry through a number of research chairs across all departments. These include chairs in Maintenance Engineering, Pyrometallurgy, Fluoro-material Science and Process Integration, Carbon Technology and Materials, Reaction Engineering, Tribology and Environmental Engineering, Railway Engineering and Broadband Wireless Multimedia Communications.
- The School has a number of research centres.
- Each department excels in its own research, but the consolidation of research activities is encouraged and several sustainable research groups have been formed to make an impact worldwide.
- According to the Thomson Reuters Essential Science Indicators for citations, the School of Engineering is ranked in the top 0.5% of engineering schools in the world.

SCHOOL FOR THE BUILT ENVIRONMENT

- The School for the Built Environment offers the entire spectrum of programmes in the built environment, with studio-based education in the architectural degrees and close ties and alignment with the building industry.
- The Department of Architecture is one of only a few institutions worldwide that offers cross-cutting programmes in the three disciplines of architecture, landscape architecture and interior design.

SCHOOL OF INFORMATION TECHNOLOGY

- The School of Information Technology is unique and the first of its kind in South Africa. Students have the advantage of an integrated approach to information technology (IT), with programmes and modern laboratories in Computer Science, Informatics and Information Science.
- The School offers cross-disciplinary degrees, such as MIT and PhD (IT), and each of the departments has its own selection of undergraduate and postgraduate degrees.
- The nine undergraduate degrees offered in the School cover the entire spectrum of disciplines associated with IT.
- All the degree offerings in the School focus on industry-related trends and are highly sought after in the IT industry.
FACULTY OF HEALTH SCIENCES

The Faculty of Health Sciences has a long and proud tradition of excellence in the education of health professionals, of undertaking relevant research, of community projects and of providing quality service in community clinics and teaching hospitals that affords specialised care for the underprivileged while providing a clinical platform for supervised student learning.

The Faculty comprises four schools, namely Dentistry, Healthcare Sciences, Medicine and Health Systems and Public Health

- The School of Dentistry trains dentists and oral hygienists. It offers postgraduate diplomas and trains dental specialists.
- The School of Healthcare Sciences trains dieticians, nurses, occupational therapists, physiotherapists and radiographers and offers postgraduate training in all the disciplines.
- The School of Health Systems and Public Health is a postgraduate school offering Masters and PhD's in Public Health, Clinical Epidemiology, Health Systems and postgraduate diplomas.
- The School of Medicine trains medical doctors, clinical associates and medical scientists. Specialists are trained in 32 disciplines and 20 sub-specialist disciplines.

FACULTY OF HUMANITIES

As one of the oldest humanities faculties in South Africa (110 years old in 2018), the Faculty is the intellectual home of the liberal arts at the University of Pretoria, and forms a basis for a solid foundational education. Academic curricula, research activities and community engagement initiatives not only address the diverse needs of local communities, but also contribute significantly to international endeavours and debates relating to the human sciences.

The University of Pretoria is ranked in the top three hundred in the world for arts and humanities, according to the latest Times Higher Education World University Rankings. UP was placed in the 251-300 bracket worldwide for arts and humanities subjects, and in the 601 to 800 bracket for all subjects. This is the first time UP has been included in the survey.

The major fields of knowledge in the arts (music, drama and visual arts), languages, social and applied social sciences and humanities are taught with careful attention to location, context and history in a deeply interconnected world. The Faculty is one of the most comprehensive faculties in the field of humanities in the country and comprises 17 different academic departments, two teaching units and a number of specialised research centres and institutes. They offer sixteen undergraduate and 153 postgraduate programmes.

Research capacity in the humanities is enhanced through multidisciplinary team research projects undertaken in collaboration with a wide range of international partners and faculty research themes (such as Inequalities and Social Justice, Decolonisation of the Curriculum, Capital Cities and The Public Intellectual). The Faculty will be introducing a new Master's programme in Tangible Heritage Conservation and a BSocSciHons programme in Heritage, Museums and Preservation Studies from 2019.
The Faculty is a strong proponent of multilingualism viewing the exposure and study of multiple languages to be central for understanding and appreciating the complexity and richness of the society within which it is located. A wide range of language programmes are offered, including African languages (Northern Sotho, Zulu, Tswana and Ndebele), Afrikaans, Ancient languages (Greek, Latin and Semitic languages), English and four other ‘modern’ European languages (French, German, Portuguese and Spanish). Japanese is also taught at an introductory level.

**FACULTY OF LAW**

Seen from one perspective, the Faculty of Law consists of staff, students and a building. However, it is much more than that: It represents an idea, namely the idea of a society governed by the rule of law and not by individuals. The Faculty pursues this idea by focussing on the law and on excellence in all divisions of jurisprudence. It is also pursued by focussing on jurists and by preparing our students to become leaders of their communities where they can promote the law and its principles effectively.

According to the Times Higher Education World University Rankings (THEWUR), UP’s Faculty of Law is the top faculty not only in South Africa, but in Africa.

The University of Pretoria (UP) has been ranked ninety-second in the world for law, according to the latest Times Higher Education Law subject ranking. It is the only local university in the top 100.

The TuksLaw team came first in South Africa, by winning the 58th Phillip C Jessup International Law Moot Court Competition.

**FACULTY OF NATURAL AND AGRICULTURAL SCIENCES**

The hopes of South Africa rests to a large extent, on developments in Science, Engineering and Technology. The Faculty of Natural and Agricultural Sciences aims to provide leadership in the fields of basic natural sciences and mathematics. It has substantial records of research achievement. A high quality of undergraduate and postgraduate education is offered and involvement in a variety of community projects contribute to excellence provided by the Faculty.

**FACULTY OF THEOLOGY AND RELIGION**

The mission of the Faculty of Theology and Religion is to serve different faith communities, and science, bearing in mind our devotion to society, the African context and sensitivity to the concerns of the different traditions of faith. We are proud to count people from across the world among our students and alumni. The Faculty of Theology and Religion is:

- the largest, oldest and most productive Theological Faculty in South Africa.
- in terms of academic excellence, a world-renowned research Faculty. Our students are sought after for students’ exchange programmes by different international universities including, but not limited to, Europe and America.
- ranked in the top one hundred worldwide for Theology, Divinity and Religious Studies by the QS World University Rankings by Subject and first in Africa.
- involved in several outreach programmes in terms of missiology, polity and poverty alleviation, to mention but a few.
FACULTY OF VETERINARY SCIENCE
The Faculty of Veterinary Science is situated on the Onderstepoort Campus some 20 km north west of the Hatfield Campus and some 15 km due north of the city centre of Pretoria (Tshwane). It aims to be an internationally accredited seat of veterinary excellence, strives to be globally competitive, regionally pre-eminent and locally relevant while providing an effective veterinary interface to Africa. The Faculty has a proud tradition in veterinary and para-veterinary education, research and service-rendering which dates back to the early 1920s.

THE GORDON INSTITUTE OF BUSINESS SCIENCE (GIBS)
Founded in 2000, the University of Pretoria's Gordon Institute of Business Science (GIBS) is an internationally accredited business school, based in Johannesburg, South Africa's economic hub. As the business school for business, we focus on general management in dynamic markets to significantly improve responsible individual and organisational performance, primarily in the South African environment and increasingly in our broader African environment, through the provision of high quality business and management education. In May 2017, the annual UK Financial Times Executive Education rankings, a global benchmark for providers of executive education, once again ranked GIBS as the top South African and African business school. This is the 14th year running that GIBS has been ranked among the top business schools worldwide. In October 2016 the GIBS MBA was ranked among the top 100 business schools globally in the prestigious Financial Times Executive MBA Rankings. GIBS is the only business school in Africa to appear in this ranking.

GIBS is accredited by the Association of MBAs (AMBA), the Association to Advance Collegiate Schools of Business (AACSB), the Council on Higher Education (CHE) and is a member of the South African Business Schools Association (SABSA), and the Association of African Business Schools (AABS). For more information, visit www.gibs.co.za.
5. Evaluation of international qualifications

5.1 Universities South Africa (USAf)

A full or foreign conditional exemption certificate is a prerequisite for enrolment for undergraduate studies at the University of Pretoria in the case of non-South African citizens and students who do not have a South African National Senior Certificate (NSC) or an Independent Examination Board (IEB) qualification. This certificate can only be obtained from Universities South Africa (USAf).

USAf requires the following documentation when application is made for a full or foreign conditional exemption certificate:

- Copies of foreign qualifications certified as correct by either the Registrar of a South African university, a South African embassy or consulate in a foreign country, or a public notary (result slips, faxes and copies certified by a Commissioner of Oaths are not acceptable).
- A certified copy of the applicant's South African identity document (in the case of permanent residents only), or a valid foreign passport containing the applicant's full names and date of birth, passport number and photograph, or a certified copy of the applicant's birth certificate.

Contact information

Tel +27 (0)10 591 4401/2
     +27 (0)12 481 2821
Fax +27 (0)12 481 2843/50
Email applications@universitiessa.ac.za
Website www.universitiessa.ac.za
Location First floor, Blocks E and D, Hadefields Office Park,
         1267 Pretorius St, Hatfield, Pretoria, 0028, South Africa
Postal address PO Box 27392, Sunnyside, Pretoria, 0132

5.2 South African Qualifications Authority (SAQA)

Postgraduate applicants must have all their previous post-school qualifications evaluated by the South African Qualifications Authority (SAQA) before applying for postgraduate studies at the University of Pretoria. However, before applying for a SAQA evaluation for admission to the School of Engineering, please send an inquiry regarding the necessity of an evaluation to dawn.taljaard@up.ac.za; stefanie.steenberg@up.ac.za; or nadine.ahdong@up.ac.za.

The online application procedure is outlined on www.saqa.org.za and includes the following steps:

Step 1: Online registration and application.
Access the relevant link on the SAQA website by selecting Services > Evaluation of foreign qualifications > Online application:

- Register yourself online if you are a new client and/or login.
- Select ‘Evaluation certificate’ and carefully read through all the information.
Click ‘Next’ and complete the relevant sections.
Once complete, print the online application form.
Read and sign the declaration on the online application form (unsigned application forms will not be processed).

Step 2: Receipt of submission number and proof of payment for the SAQA service:
- On the printout of the online application form, you will automatically receive a submission number starting with 20.
- This submission number is your reference number for payment purposes.
- Please use this submission number when making the payment into the bank account.
- Proof of payment without a submission number is not valid.

Step 3: Submission of documents together with the printed online application form: SAQA will only process applications when the following documents are received together:
- The printed and signed online application form.
- Proof of payment reflecting the submission number as reference number.
- The correct documentation strictly according to the requirements as stated on the online application form.
- A certified copy of an official identity document.

PLEASE NOTE: SAQA only accepts online applications for the evaluation of foreign qualifications. No other form of application is accepted.

6. UP Language policy

From 1 January 2019 English will be the language of teaching and learning for all first-year programmes. The only exception is where students are studying other languages and in programmes with profession-specific language outcomes, subject to approval by Senate. English will also be the language of official communication and administration on all campuses and in residences. Where requested and feasible, administrative services may be provided in other South African languages.

Students who registered prior to 2019, including those who registered in 2018 for the first time, will continue to receive lectures, tutorials, study guides and assessment material (question papers, assignments and the like) in Afrikaans for those programmes which were offered in Afrikaans at the time of enrolment, provided that the class size remains practically feasible and it is academically justifiable.

Where assessment and question papers are set in Afrikaans, currently enrolled students will also be allowed to answer in Afrikaans.

7. International Cooperation Division

The International Cooperation Division (ICD) is home from home for all non-South African students. All inquiries relating to immigration and the specific needs of an international student can be addressed to isd@up.ac.za.

All students who are not South African citizens must submit immigration clearance documents prior to registration. The University will be open from 3 January 2018.

Before non-South African citizens are allowed to register, they need to submit proof of their legal status in South Africa, as well as proof of adequate medical aid cover.

Documents required are stated under the heading ‘Supporting documents’ and must be emailed to isd@up.ac.za. Students must clearly state their student number on each page.

Contact information
Tel +27 (0)12 420 3111
Email isd@up.ac.za
Website www.up.ac.za/international-cooperation-division
Location Graduate Centre, Hatfield Campus
The ICD team is responsible for the pre-care, in-care and post-care of all non-South African citizens who wish to study at the University of Pretoria. Specific responsibilities are indicated in the table below:

### 7.1 Immigration clearance

The International Cooperation Division (ICD) is the immigration control point for non-South African students. All newcomers and returning students must submit immigration clearance documents to the ICD via email to isd@up.ac.za.

#### Supporting documents

Each of the documents listed below must be submitted via isd@up.ac.za:

- The International Students Information form and Medical Indemnity form, completed and signed. (Can be downloaded from the website at www.up.ac.za/international-cooperation-division).
- Copy of a valid passport or ID (in the case of students with permanent residence in South Africa). (Page with photo and number).
- A valid study visa endorsed for studies at the University of Pretoria, or one of the following:
  - An asylum-seekers transit visa
  - Refugee – a Section 24 permit
  - A diplomatic visa. (Diplomatic cards are not acceptable).
  - A work visa for part-time Postgraduate Students.
- Proof of medical aid cover (medical aid premiums must be paid in advance for a period of one year, from January to December). No exceptions.

Permanent residents are still classified as non-South African citizens and must submit a photocopy of their proof of permanent residence in South Africa before registration.

**PLEASE NOTE:** Permanent residents of countries other than South Africa, including permanent residents of SADC-countries will be captured on UP systems as citizens of their original countries and tuition fees will be levied accordingly.

The above-mentioned documents must be submitted via email and the information must be captured before a student will be allowed to register.
7.2 **Temporary residence permits**

The New Immigration Regulations of 2014 were published in Government Gazette No 37679 in terms of section 7 of the Immigration Act of 2002 (Act No 13 of 2002) and came into effect on 26 May 2014. Both prospective and returning students are advised to visit www.vfsglobal.com/dha/southafrica for all the required information.

All foreign nationals wishing to enter South Africa will have to adhere to the New Immigration Regulations.

The Department of Home Affairs has announced the opening of visa and permit facilitation centres in 11 cities located in the nine provinces of South Africa. Visa and permit applications will be accepted at any of these centres and will be assessed by the Department of Home Affairs in Pretoria. Non-South Africans with legal residency permits can apply for visas or permits at these centres.

Renewal of the Zimbabweans Special Permit (ZSP) for Zimbabwean nationals is handled directly by the Department of Home Affairs.

Every non-South African citizen is required to hold a valid passport and a temporary residence permit, such as a study visa endorsed for study at UP. Non-South African citizens wishing to enter South Africa should only apply for study visas once they have received an official letter of admission.

Study visas must be obtained before travelling to South Africa. First applications for study visas will no longer be accepted within the borders of South Africa.

**PLEASE NOTE:** To ensure that the correct procedure to obtain entry into South Africa has been followed, visit www.up.ac.za/international-cooperation-division for more detailed information on the Immigration Regulations (which came into effect on 26 May 2014).
### 7.3 Visa types for international students

<table>
<thead>

For Block students:
- Visitor’s visa (not exceeding three months) is required.
- No medical cover is required.

For Postdoctoral fellows:
- Work visa is required for research at UP.
- Visitor’s visa endorsed for research at UP.
- Critical skills visa is also required.
- Will require medical cover.
- Will require medical cover and SAQA evaluation of the PhD degree at one’s own cost.
7.4 Compulsory medical aid cover

Important information for study visa holders

In terms of South Africa’s Immigration Act of 2002, non-South African citizens who are holders of study visas, or wish to apply for study visas, must have medical aid cover for the duration of their stay in South Africa. Ensure that the medical aid is registered with the Council for Medical Schemes in South Africa.

Before applying for study visas, students registering for studies at the University on study visas can apply online for medical aid cover endorsed by UP. Any student who enters South Africa on a study visa without the required medical aid cover is recommended to join Momentum Health (Ingwe option).

Refer to www.ingwehealth.co.za. Select Benefits and contributions > Benefits and then download the student brochure.

PLEASE NOTE: Some South African Consular Offices, where students apply for study visas, accept international medical insurance submitted by students applying for study visas. However, the University of Pretoria requires full-degree students, exchange students and study-abroad students to join a South African medical aid registered with the Council for Medical Schemes in South Africa, provided proof of membership for the full year, January to December can be provided. International insurance is not accepted. Students who fail to adhere to this stipulation will be obliged to join Momentum Health (Ingwe option) on campus upon arrival, before being allowed to register. A student visiting South Africa for less than 90 days and entering on a visitor's visa is exempted from this rule.

Momentum Health (Ingwe option)

8. Exchange, study-abroad and elective students

8.1 Application, academic year and examinations

The application form is sent to the student via mail or email and should be returned to the international specialist consultant at UP responsible for the region of the student’s home institution. The academic year commences in January and lectures commence in February. Examinations are always written in June or November (second semester) and supplementary examinations are written before the beginning of the second semester, or between November and December.

Students are allowed to register for only one semester (six months), unless special arrangements have been made between the home institution and the host institution.
The application procedure is as follows:

- A duly completed and signed application form for admission to study at UP must be submitted.
- A copy of the student’s passport (the page containing the passport number and photograph) must be attached to the application.
- Official academic transcripts and results must be attached.
- A letter from the student’s home institution must be submitted. This letter must:
  - state that the candidate has permission to spend a semester (six months) at UP;
  - confirm that the student is currently registered at the home institution;
  - confirm that the student has been selected to be a student in one of the above-mentioned categories at UP;
  - include a brief explanation of the proposed programmes to be pursued at UP; and
  - provide proof of language proficiency.
- No application fee is required.

**PLEASE NOTE:** Should a student register for a degree programme they will be required to comply with the requirements that pertain to that programme in terms of all the modules applicable to such a programme. Undergraduate programmes have a duration for completion of between 3 and 6 years. Should a student however only wish to obtain credits for specific modules, they should enrol for these modules as they are presented either in the first or second semester. The credits you earn for the second option will be accredited to you at your home university.

At the University of Pretoria our first semester is from January to June and the second semester is from July to December of a given year. Please ensure that before you register for any modules, you are sure that they will be presented in this time frame, based on your exchange period. This will also ensure that you can obtain the credits you desire.

### 8.2 Exchange students and study-abroad students

**Selection of programmes/modules:**

The Yearbooks of the University of Pretoria can be accessed on this website: [www.up.ac.za/yearbooks/home](http://www.up.ac.za/yearbooks/home).

Students must submit a list of the programmes they wish to follow during their exchange programme/semester of studying abroad (compulsory and optional study programmes). Students who experience difficulties in this regard may contact the ICD office via email in order to be referred to the relevant academic(s) for advice and/or academic alternatives. To avoid unnecessary disappointment and complications, it is important that students first determine the availability of a specific programme before travelling to South Africa. Please note that certain undergraduate, postgraduate and selection programmes may not be available. Students are welcome to apply to study in any of the faculties, with the exception of Health Sciences.
Students who are required to write supplementary examinations are advised to postpone their return home, as UP will not allow students to write supplementary examinations outside South Africa. It is the student’s responsibility to check with the relevant faculty upon arrival to find out when examinations for registered programmes will take place.

**Closing dates: Exchange students and study-abroad students**

The closing date for applications for the first semester (January to June) is always 30 September in the year preceding a student’s studies at UP. For the second semester (July to December), the closing date for applications for exchange students and study-abroad students is 31 March in the current year.

### 8.3 Elective students

Elective students wishing to apply at the University of Pretoria will be required to submit the following documents:
- A signed and completed application form.
- A letter of confirmation stating that they are a bona fide student at their home institution (the letter should also indicate the duration of their stay and the purpose of the elective study programme they wish to enrol for).
- A letter of confirmation from the University of Pretoria permitting them as a student, to spend an elective period at this institution.
- A copy of their passport.

The administration fee for elective students for the 2017 academic year is R2 260. Please note that this amount is subject to change at any time. For the most recent information go to www.up.ac.za/fees-and-funding.

After the ICD has received the above-mentioned documentation, students’ applications will be processed.

There is no closing date for applications for elective students.

### 8.4 Accommodation

The ICD is responsible for arranging accommodation for exchange students, study-abroad students and elective students. However, accommodation is subject to availability and is allocated on a first-come, first-served basis. For more information please go to: www.up.ac.za/student-accommodation.

### 8.5 Special Orientation Programme for international students

Attending this programme is recommended for all newcomers, exchange and study-abroad students. Details are communicated to students in the letter of admission.
9. Fees and funding

For detailed information on fees, funding, bursaries, loans and scholarships please consult: www.up.ac.za/feesfunding.

PLEASE NOTE:
■ All amounts published are in South African Rand (ZAR). International students should familiarise themselves with all the relevant information that will apply to their studies at the University of Pretoria.
■ No student will be able to register for an academic semester unless all outstanding fees have been paid.
■ Should a student have been awarded a bursary by an institution other than UP, a document confirming the bursary must be submitted to the Student Service Centre.
■ Students whose accounts are in arrears will not receive their examination results or academic records and interest will be charged on overdue accounts. These students will also not qualify for placement in a UP residence for the next academic year.

A full-degree student who is not a South African citizen should budget for an initial payment of between US $2 000 and US $4 000 per academic year before registration at UP. This amount does not include accommodation and other expenses.

International levy

■ The international levy for 2017 is R 2 900, subject to change every year.
■ This international levy, which is payable in addition to the registration fee, must be paid annually by all non-South African citizens, including students who are citizens of SADC countries and whose study visas or visitor's visas are endorsed to study in South Africa.
■ Asylum seekers, refugees and diplomats stationed in South Africa, as well as permanent residents of South Africa only, are exempted from paying the international levy.
