## STUDENTS WITH FEWER OPPORTUNITIES

### Allocation rules for students with fewer opportunities:

To facilitate access to mobility for students as much as possible, higher education institutions must ensure equal and equitable access and opportunities to current and prospective participants from all backgrounds. This means including participants with fewer opportunities, such as:

- participants with certified physical and health problems;
- economic disadvantage evidenced by maintenance scholarship/financial aid issued by the home university to the student.

For the category of students with fewer opportunities, the **additional grant** in the amount of **250 EUR per month** may be awarded, in addition to the ordinary grant.

**Please note:** The University of Lodz cannot guarantee a scholarship for students with fewer opportunities to all applying participants. In order to be eligible for funding, the disadvantaged status must be certified by the home university. All documents certified the student status need to be translated into English. The priority is given to students with fewer opportunities.
