MEDIUM OF INSTRUCTION

In conducting its business, the University uses two official languages, namely Afrikaans and English. In formal education the medium of instruction is either Afrikaans or English, or both of these languages, provided that there is a demand and that it is academically and economically justifiable. However, it remains the student's responsibility to ascertain on an annual basis in which language and at which levels modules are presented. In respect of administrative and other services, students shall have the right to choose whether the University should communicate with them in Afrikaans or English.
