Note: The following general principles for combining disciplines in this programme are important:

- If a discipline (subject) does not offer two semester modules (4 quarter modules) per year level, students should consult the relevant head of department of the particular discipline regarding potential supplementing with other relevant modules.
- If any language disciplines (language subject) are selected, the module choices which are prescribed in the language groups and in the alphabetical list of modules must be taken into account.
- A few disciplines (subjects) from other faculties may be included in this programme but the following restrictions are applicable: only two of the four first-year subjects, one of the three second-year subjects, and one of the two third-year subjects may be selected from another faculty. Only the following disciplines from other faculties may be included in the programme:
 - Biblical and religious studies REL110,120
 - Education (OPV)

In addition to the prescribed fundamental modules, the curriculum should be compiled as follows:

Second year of study

Select one discipline (subject) that you did in the first year and do both semesters at year level 2.

Select any 2 additional disciplines at year level 1 and do both semesters.

Third year of study

Select any 1 of the previous disciplines that you did at year level 1 and do it at year level 2.

Select one of the disciplines that you did at year level 2 and do it at year level 3.

Fourth year of study

Select the other discipline that you did at year level 2 and do it at year level 3. Select any of the remaining modules you did at year level 1 and do it at year level 2.

The following general principles for combining disciplines in this programme are important:

- If a discipline (subject) does not offer two semester modules per year level, students should consult the relevant head of department of the particular discipline regarding potential supplementing with other relevant modules.
- If any language disciplines (language subjects) are selected, the module choices which are prescribed in the **language groups (see below)** and in the alphabetical list of modules must be taken into account.
- A few disciplines (subjects) from other faculties may be included in this programme but the following restrictions are applicable: only two of the four first-year subjects, one of the three second-year subjects, and one of the two

third-year subjects may be selected from another faculty. Only the following disciplines from other faculties may be included in the programme:

- Biblical and religious studies (REL)
 - Information science (INL)
 - Education (OPV)
 - Geography (GGY)
 - Consult the yearbook of the relevant faculty that offers these disciplines regarding the credit values, presentation modes and possible prerequisites.
- In order to continue with postgraduate studies in a specific discipline, a student needs to do six semester modules in the discipline over the three years of study.

LANGUAGE GROUPS FOR SELECTION IN PROGRAMMES

Note: Consult the yearbook for module-specific requirements/prerequisites by searching for the relevant language module.
