Bachelor of Commerce specialising in Business Management

Make today matter

What does the programme entail?

The Bachelor of Commerce specialising in Business Management degree is for students who would like to become business leaders and be employed in an organisation, or even create their own employment. This programme provides a big-picture view of the organisation as a body with separate but interdependent parts and students are taught how all the parts function as a whole.

Structure of the programme

Core modules (compulsory)

Note: All first-year students take the compulsory fundamental modules on academic information management and academic literacy for EMS, and all second-year students take the module Introduction to moral and political philosophy.

1st year	2nd year	Final year
<ul style="list-style-type: none"> Business management Marketing management Financial accounting Statistics Economics Informatics (accounting software) Communication management 	<ul style="list-style-type: none"> Business management Marketing management Financial management Business law Design thinking and business innovation Business creation Responsible management 	<ul style="list-style-type: none"> Business management Marketing management International business management Business analytics Responsible leadership Human resource management

Who are the ideal candidates?

Prospective students who hope to excel in this programme should be:

- Able to see the big picture
- Creative thinkers
- Analytical thinkers
- Self-starters
- Able to integrate ideas and concepts
- Systematic organisers and planners

What makes this programme unique?

This degree programme empowers students to develop a passion for business through exposure to South African and international best practices. Students are equipped to solve real-life business problems, use management processes to make decisions to benefit the organisation and understand the importance of being innovative in a dynamic business environment.

Which companies employ our graduates?

The career prospects for graduates who complete this degree are vast. They could either join established businesses or start their own.

'My decision to study at UP was a leap of faith that turned out to be the best decision I've ever made. I have fallen in love with business management because it involves all aspects of the business and oversees different business functions that form the foundation of the company's structure and operation.'

Studying at UP has been a great adventure, from my first year being purely online due to COVID-19 to being a postgraduate student. I remember in the first year feeling like I was missing out on the traditional campus experience because of online classes, yet when we transitioned to on-campus learning in the second year, I felt like I was a first year all over again, overwhelmed by the new world I was about to explore. Throughout all these dynamic learning experiences, the university offered me different supporting measures like tutorials, academic success coaches, and student counselling units.

This road certainly hasn't been an easy one, and looking back at it now it's safe to say it's been a rollercoaster of emotions and experiences with a mixture of stress, joy, and challenges.'
