

Make today matter

This programme focuses on the chemical composition, structure and nutritional value of food. The interaction of food components during processing, preservation and storage is studied by making use of chemistry, physics, biological and mathematical principles. Candidates who are likely to excel are those who enjoy science and are keen on understanding food production from farm to fork.

What makes this programme unique?

Students of this programme focus on a product essential to daily life—food—preparing themselves to play a vital role in feeding the nation. A graduate with a Bachelor of Science in Food Science degree is eligible for registration as a natural scientist with the South African Council of Natural Scientific Professions (SACNASP).

Which companies employ our graduates?

Graduates are employed by major food production companies such as Nestlé, RCL Foods, in2foods, Unilever, and Rhodes Food Group. They also work with leading food retailers like Shoprite, Checkers, Woolworths, and Pick n Pay, as well as flavour and additive producers such as SAAFI and Cell-Chem. Additionally, they find opportunities in laboratories specialising in food analysis, both in South Africa and internationally.

Career opportunities

Brewers

Food and
nutrition
analysts

Food
chemists

Food
microbiologists

Food risk
investigators

Food structure
designers

Packaging
and shelf-life
specialists

Product
and process
development
managers

Safety
auditors

Sensory
scientists

Technical sales
and marketing
advisors

Quality and
safety assurance
managers

Minimum admission requirements

Programme	Minimum requirements for NSC/IEB for 2026			
	Achievement level			APS
	English Home Language or English First Additional Language	Mathematics	Physical Sciences	
Bachelor of Science in Food Science [3 years]	5	5	5	32
