The University of Pretoria invites applications from excellent doctoral graduates to apply for the Vice-Chancellor's Postdoctoral Fellowships at the University. These fellowships enable recent doctoral graduates to join the University as postdoctoral researchers, and to develop their research skills and academic careers through participation in the University's areas of research strength and strategic priorities.

The University of Pretoria supports research in a range of fields, broadly grouped under faculties, as well as priority research themes and the research undertaken in institutes and centres (http://www.up.ac.za/institutes-and-centres/). The priority areas include biological sciences, data sciences, economics and business sciences, energy, engineering, food security, genomics, health sciences, humanities and social sciences, and sustainable development, amongst others. Applicants are invited to visit the University's website and the respective Faculty web pages for additional information. http://www.up.ac.za/en/hsc-research-funding/

The fellowships will be awarded on a competitive basis. Previous achievements of candidates will be important criteria in identifying suitable fellows, as will the alignment of candidates’ research interests with identified institutional research priorities. Applications are particularly invited from international postdoctoral candidates with research interest and expertise in these fields.

APPLICATION PROCESS

The application form is available at http://www.up.ac.za/en/hsc-research-funding/article/1969283/research-funding-next-generation-researchers#VC%20Postdoc. Applications should be accompanied by a comprehensive curriculum vitae and a two-page letter of motivation describing achievements and objectives, and identifying the research programme in which fellows would wish to be appointed. Applications should be supported by two letters of reference. Applications must be submitted to natasha.jeftha@up.ac.za by no later than 20 August 2015. Queries can be directed to Natasha Jeftha.
